

Churchville, Creswell, fountain Green Advisory Committee Minutes: March 24, 2022

Attendees: Jay DuBree, Cynthia Lence, Lawreson Sayre, Ruth Cassilly, Tom Knapp- for Sen. Bob Cassilly, Capt. Scott Walker

I. Approved January meeting minutes

II. Reports from elected officials or reps:

a. Sherriff's Office: Capt. Scott Walker- Southern Precinct: reduction in calls for service, related to better weather, increase of 1 crash, small increase in thefts, 1 burglary – Fountain Green, increase in reckless driving post covid, concentrating extra enforcement- Prospect Mill Rd/22, Shuck's Rd.

-Northern part of the county is again seeing an uptick in dirt bike burglaries, well organized operations- cut locks, disarming security systems

-people advertising items on Facebook Marketplace are being targeted by scammers who then case and rob residences- be cautious of allowing strangers to come to residences

-Sheriff's officers and correctional officers are in critical need- actively recruiting to fill positions

b. Senator Bob Cassilly Rep: Tom Knapp- report out on Annapolis- Ambulance bill- reimbursement for unnecessary calls, also attended to take feedback on issues the Senator's office may be able to help with, will reach out to State Highway Administration on several key traffic issues they have not acted on- 155/22 intersection issue

II. Old Business

a. Hooker's Mill Rd./136 intersection: no visibility at bridge- no movement on this, Asbury Rd./136 issue- again no visibility over the hill when turning onto 136- is a mirror a solution?

b. Rural broadband- progressing, line run up 136 north

c. Rte. 22/155/136 intersection: State Hgwy Admin reviewed the intersection and did not find cause for changes- all is in working order according to their models, proposed extending merge line West of 22 in front of Safelite auto and My Three Sons restaurant, this would be a safety hazard and not a solution to congestion at the 2 intersections, we need field observations of the intersections, the safety issues remain

III. New Business

a. Eva Mar: county has issued a stop work order- pulled permits, the key Presbyterian Homes- has pulled out of the project, 2 options exist- sell to someone who will finish according to existing approved design, or finish the project they started, possible result is that progress made so far will deteriorate while waiting for a buyer- county needs to address this issue and find a solution

**Outstanding issue:** Someone needs to take over management of the Churchville Advisory Board Facebook page- this is how we communicate news to the community and receive feedback/input on community concerns- we need to decide how to maintain this page
