GOVERNMENT FINANCE OFFICERS ASSOCIATION

*Distinguished  
Budget Presentation  
Award*

PRESENTED TO

**Harford County**

**Maryland**

For the Fiscal Year Beginning

**July 1, 2007**

*Olsen S. Cox*

President

*Jeffrey R. Emery*

Executive Director

**STATEMENT OF COMPLIANCE  
WITH  
PROGRAM CRITERIA  
OF  
GOVERNMENT FINANCE OFFICERS ASSOCIATION**

The Government Finance Officers Association of the United States and Canada (GFOA) presented a Distinguished Budget Presentation Award to Harford County, Maryland for its annual budget for the fiscal year beginning July 1, 2007.

In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, as an operations guide, as a financial plan, and as a communications device.

This award is valid for a period of one year only. We believe our current budget continues to conform to program requirements, and we are submitting it to GFOA to determine its eligibility for another award.

## COUNTY OVERVIEW

Harford County, Maryland, with its northern border being the Mason-Dixon Line, lies between Pennsylvania on the north and the Chesapeake Bay on the south, with the Susquehanna River on the east, and most of its western border on the Gunpowder River. The northern areas of the County are in the Piedmont Plateau, two to seven hundred feet above sea level. The southern areas are part of the Coastal Plain and range from forty to two hundred feet above sea level.

Today the County encompasses 448 square land miles\* and 16.5 square water miles\*. Harford has three incorporated towns: Aberdeen, Havre de Grace, and Bel Air, which is the County Seat. Northern Harford is primarily agricultural with moderate population increases, while the County's designated "Development Envelope" falls within the southern end and has experienced a sizable population growth.

A strong public / private sector partnership is largely responsible for Harford County's industrial development. Two State Enterprise Zones and twenty industrial / business / office parks, with sites ranging from small parcels to several hundred acres have been established here. All of this contributes towards making Harford one of Maryland's top industrial growth counties.

\* Per the MD Geological Survey 1/24/07

## INTRODUCTION

### **WHY CAPITAL PROGRAMMING?**

Harford County Government officials, after gathering input from all departments and agencies, identify long-range public facilities and improvements that are needed and formulate a capital program, consisting of a one year Capital Budget and a six year Capital Improvement Program.

Such a program provides appropriation authority and planning for projects of expected long-term usefulness, size and cost, and / or which require large expenditures of funds usually programmed over more than one year, and which result in a durable capital asset.

### **CAPITAL PROGRAM OBJECTIVES**

- To provide the infrastructure necessary to support the County's public services.
- To support the development objectives included in approved County plans, especially the Land Use Master Plan.
- To enhance financial planning by comparing needs with resources, estimating possible future bond issues, plus debt service and other current revenue needs, thus identifying operating budget and tax rate implications.
- To establish priorities among projects so that available effort and limited resources are used to the best advantage, emphasizing functionality over aesthetics, standardization of materials and infrastructure, and employing best practices to achieve efficiency and economy.
- To plan public facility construction to coordinate timing and functional relationships.
- To identify as accurately as possible the impacts of Capital projects on future operating budgets, energy use and costs and demands on land use.
- To provide a central source of information on all planned public construction for residents, agencies and other interest groups.

## INTRODUCTION

### **FACTORS FOR INCLUSION IN THE CAPITAL PROGRAM**

A common characteristic of all projects eligible for inclusion in the Capital Program is that each adds to, supports or improves the physical infrastructure, capital assets, or productive capacity of County services.

Capital projects also have one or more of the following characteristics:

- Expenditures that will take place over two or more years, requiring continuing appropriations.
- Funding with the use of debt, because of significant costs that should be shared by future as well as current users or beneficiaries of the project.
- Systematic acquisition over an extended time period, to complete implementation of a major functional or operating system.
- Scheduled replacement or renovation of specific elements of many facilities, e.g. energy conservation improvements or roof replacements.

### **CAPITAL PROGRAM PROJECT PROFILE**

In order to be included in the Capital Budget or Capital Improvement Program, a project must fit one or more of the following profiles:

- Construction of public buildings and facilities in government ownership including schools, offices, service centers, stations, warehouses, shops, parking lots and garages, with the initial complement of furnishings and equipment necessary to make them operational.
- Renovation or reconstruction projects for the purpose of expanding the capacity or extending the useful life of public buildings, facilities or infrastructures.
- Roads or other transportation systems that provide the means for movement of people, goods, and services throughout the County.
- Acquisition of property (either land or improvement) or easements for: building sites; rights-of-way; purposes of conservation or preservation; and other public improvements such as parks and recreation areas.

## INTRODUCTION

- Site improvements that may include drainage, water supply, sewerage or other utilities as well as access and grading for specified public use.
- Major capital equipment and equipment systems as well as acquisition of major automated systems involving hardware, software and training.
- Other capital assets which have a long-term operational or economic value.
- Planning and feasibility studies to consider the acquisition, construction, or improvement of permanent assets or physical infrastructure as noted above.

### **THE BASIS FOR HARFORD COUNTY'S CAPITAL BUDGET POLICY**

The objectives of the Capital Program, the characteristics of included projects, and the determination of funding sources all evolve from Harford County's Capital Budget Policies and Processes which were framed by the County Charter, Article V, Budget and Finance and the County Code; expanded by our Business Plan; enhanced by recommendations of the Government and Finance Officers Association (GFOA); and conform to Federal, State and local regulations as well as requirements of the Governmental Accounting Standards Board (GASB).

At the core of these policies and processes is the County's determination to remain conservative financial managers; yet recognize fluctuations in the economy, changing trends, adoption of new laws, and the concerns of our citizens. The County realizes the need to constantly review and adapt where necessary our ways of conducting business.

Harford County's Capital Budget Policies are based on and have evolved from:

- **Harford County Charter, Article V, Budget and Finance**

The Harford County Charter, Article V, Budget and Finance sets the Fiscal, Tax and Budget Year to begin on the first day of July and to end on the thirtieth day of June of the succeeding year.

The Charter requires the County budget to be comprehensive in scope and represent a complete financial plan for the County. Revenue and expense estimates, debt, debt service, contingency reserves, cash surpluses and historical spending are required elements. The County Council is charged with adopting the annual budget and levying taxes sufficient to balance the budget as to proposed income and expenditures.

## INTRODUCTION

The Charter establishes policies concerning supplemental, emergency and unexpended appropriations, as well as transferring appropriations, limiting expenditures, defining the composition of funds, and amending the budget.

The County may incur debt per the Charter; however,

- no debt for a term of one year or greater shall be incurred by the County to meet operating expenses;
- all debt for a term in excess of one year shall become due no later than 30 years after the date of issuance, except debt incurred to finance water, sewer, and wastewater facilities, which shall become due no later than 40 years after the date of issuance; and
- debt should be made payable within the probable useful life of the improvement or undertaking.

### Planning Advisory Board

Section 406 of the Harford County Charter establishes a Planning Advisory Board consisting of five members, who are qualified voters of the County and appointed by the County Executive for terms coterminous with his and confirmed by the Council. "At such times as the County Executive shall fix, the Planning Advisory Board shall consider an itemized list of all capital projects and the capital improvement program which all agencies of the County government propose to undertake in the ensuing fiscal year and the next succeeding five fiscal years thereafter. After consideration by the Planning Advisory Board, the Director of Planning shall transmit to the County Executive, together with his / her recommendations, a list of projects recommended by said Board to be undertaken in the periods aforesaid and its estimate of the cost thereof."

### o **Annotated Code of Maryland - Debt Limit**

Pursuant to Article 25A , 5(P) of the Annotated Code of Maryland (1998 Replacement Volume and 2001 Supplement), the County, as a charter county, is limited in the amount of general obligation supported debt it can issue to an amount equal to a total of 6% of the assessable base of Real Property and 15% of Personal Property.

## INTRODUCTION

- o **Harford County's Five Year Business Plan**

Harford County's Five Year Business Plan addresses the areas of Financial and Strategic Planning, Debt and Cash Management, Revenues, plus Operating and Capital Budget Policies, to ensure that the County is capable of adequately funding and providing those local government services needed by the community. The aspects of the Business Plan pertinent to the Capital Budget include:

- I. **Financial Planning** - A Six Point Plan was designed to address economic cycles and maintain the existing property tax rate.

- o Expenditures will be reviewed and approved based on real versus perceived need.
    - o Each function, service, project, and expenditure will be reviewed as to its affordability.
    - o New sources of revenue will be identified and advanced.
    - o We will prepare, integrate through planning, and maintain conservative annual operating budgets and multi-year spending plans.
    - o We will plan for and preserve a prescribed year-end fund balance to maintain our credit rating and provide for emergency needs.
    - o We will develop and implement a new Five Year Capital Program based on affordability and sound debt management practices.

- II. **Strategic Planning** - The Business Plan also incorporates Principles of Sound Financial Management.

The planning system in the County will continue as a dynamic process which is synchronized with the capital improvement program, capital budget, and operating budget. The County's land use plan shall not be allowed to become static. There will continue to be a periodic review of the plans at least every five years.

## INTRODUCTION

New private projects increase the assessable bases in the County and provide the funding for capital projects of the County. Harford County must continue to diversify its economic base by encouraging commercial and, in particular, industrial employment and associated revenues. Such business and industry must be in accord with plans and ordinances of the County.

If a deficit appears to be forthcoming, the County Executive shall direct that a freeze be placed on personnel hiring and new capital expenditures. Exceptions are to be made only on a tightly controlled, case by case basis.

The County's debt ratios shall be maintained at the following levels:

- o Net Bonded Debt is to be maintained at a level no more than 2.3% of the Estimated Market Value of Assessable Property of the County.
- o Bonded Debt and its resulting debt service is to be kept at a level not higher than 8% of the General Fund Budget.

Debt must not expand beyond that already contemplated. Self liquidating bonds will be issued only after careful analysis for fiscal soundness to ensure that revenue sources are properly in place and appropriate covenants protect the fiscal soundness of the County.

### **III. Debt Management**

In order to provide an adequate physical infrastructure, improved services and channel growth while maintaining the County's quality of life, a balanced approach to capital funding was adopted.

- o The County will issue General Obligation Bonds for new buildings and major renovations and repairs to existing buildings which contribute to the life of an asset.
- o Water and Sewer projects will be financed with long term debt, only after sources of revenue have been established to pay the annual debt payments, such as connection charges and / or assessments to property owners who will benefit from the improvements.
- o Pay-As-You-Go (Paygo) will continue to be used for minor renovation and repair projects which have an asset life of less than ten years.

# INTRODUCTION

## IV. Capital Improvement Budget Policies

### Generally

- o All capital improvements and various related projects must be made in accordance with the approved capital improvement program.
- o Annually the Planning Advisory Board shall consider an itemized list of all capital projects and the Capital Improvement Program which all agencies of the County government propose to undertake in the ensuing fiscal year and the next succeeding five fiscal years thereafter. After consideration by the Planning Advisory Board, the Director of Planning shall transmit to the County Executive, together with his / her recommendation, a list of projects recommended by said Board to be undertaken in the periods aforesaid and its estimated cost thereof.
- o The County shall coordinate the capital improvement budget with the operating budget. Debt service operating costs will be projected and included in the operating budget forecasts. Debt service and, therefore, approved capital projects must follow the standard debt policies of the County.

### Five Year Capital Improvement Program

- o In accordance with the Harford County Charter, the County will adopt a five-year capital improvement plan and update it annually.
- o The County will annually enact capital improvements based on the Five-Year Plan.

### Financing Projects

- o All projects must be funded in accordance with the adopted County debt policy.
- o The county will identify the estimated costs and potential funding sources for each capital project proposal before it is submitted to the County Council for approval.
- o The County will utilize the least costly method of financing all new projects.

# INTRODUCTION

## **HARFORD COUNTY'S ADMINISTRATIVE CAPITAL BUDGET FISCAL POLICIES**

### **Long Term Financing Techniques**

General Obligation Bonds - also known as full faith and credit bonds, their quality and payment is based on the general credit and taxing power of the County. The County must take whatever actions are necessary to assure repayment. Such bonds are typically used to finance the capital portion of tax supported general public purpose governmental activities with schools, libraries, and public safety buildings being the most common uses of bond proceeds.

Revenue Bonds - unlike general obligation bonds, are payable solely from net or gross non ad valorem tax revenues derived from general fund revenues, tax increment revenues, rates fees, or charges for service by users of the facility constructed with the proceeds of the bond issue. Typically these bonds are used for the County owned water and sewer system's activities of treatment, collection, production and distribution.

Special Assessment Bonds - Under law the County may establish assessment districts and issue bonds for infrastructure improvements. The bonds are secured solely by the properties in the district, with revenues generated by a special assessment or tax on the properties.

Lease Purchase / Certificates of Participation - Obligations of the public entity secured by an installment sale or leaseback arrangement with a public entity lease. The lessee generally pledges general operating revenues to pay the lease payments, which may or may not be reimbursed by revenues from the project. These obligations do not constitute indebtedness under State constitutional debt limitation. Payments to be made under valid leases are payable only in the year in which use and occupancy of the leased property is available, and lease payments may not be accelerated.

### **Multiple Use of Facilities**

Increasing costs of capital investment in buildings and facilities demand optimal use by more than one type of government program or service and consideration of future population trends and service or program emphasis. County Government requires planning coordination among its departments and agencies, other user agencies, and when appropriate, private user organizations to ensure the functional lifetime of all such buildings and facilities extend well beyond the current generation. An example of such a multiple use facility would be when the Board of Education builds a new elementary school, the County provides funds to enlarge the school's gym, the enlarged gym is then shared by the school and various Parks and Recreation community groups. Other examples would be the joint Norrisville Library / Community Center and the McFaul Senior / Youth Center.

# INTRODUCTION

## HARFORD COUNTY'S ACCOUNTING POLICIES

### Fund Categories

Governmental Funds - governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Harford County Government maintains six individual governmental funds and information is presented separately in the governmental fund statement of revenues, expenditures, and changes in fund balances for all six governmental funds.

- o THE GENERAL FUND is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. For the County, the General Fund includes such activities as public safety, education, and recreation services.
- o THE HIGHWAYS OPERATING FUND accounts for dedicated revenues that are legally restricted to the maintenance, care, and repair of roads and bridges located outside the boundaries of the three incorporated municipalities in Harford County, Traffic Safety and Board of Education Transportation Services.
- o THE GRANTS FUND accounts for the receipt, appropriation and expenditure of federal, state, and private monies in accordance with Harford County Charter, Article V.
- o THE AGRICULTURAL LAND PRESERVATION FUND accounts for dedicated transfer tax revenues and provides for easement purchases of County agricultural land.
- o THE CAPITAL PROJECT FUND accounts for financial resources to be used for the acquisition or construction of major capital facilities of all major and non-major governmental funds.
- o PARKS AND RECREATION FUND is a non-major fund which accounts for the receipts and expenditures of the self-supporting activities of the Emmorton Recreation and Tennis Center, Recreation Councils and / or the Oakington Peninsula.

## INTRODUCTION

Proprietary Funds - Harford County maintains two different types of proprietary funds. Information is presented separately in the proprietary funds balance sheet and in the proprietary statement of revenues, expenditures, and changes in fund net assets, and the proprietary statement of cash flows for each.

- o ENTERPRISE FUNDS are used to report the same functions presented as business-type activities in the government-wide financial statements. Harford County Government uses an enterprise fund to account for its Water and Sewer activities.
- o INTERNAL SERVICE FUNDS are an accounting device used to accumulate and allocate costs internally among Harford County Government's various functions. Harford County Government uses an internal service fund to account for risk management. Because this service predominantly benefits governmental rather than business-type functions, it has been included within governmental activities in the government-wide financial statements.

### **Basis of Accounting**

General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term and capital leases are reported as other financing sources. Property taxes, income taxes, state shared tax revenues, and interest associated with current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable items are considered to be measurable and available only when cash is received by the government.

### **Basis of Budgeting**

Annual budgets are adopted for the General Fund, Highways Fund, Agricultural Land Preservation Fund, Parks & Recreation Fund, Capital Projects Funds, Enterprise Fund, Internal Service Fund, Firemen's LOSAP and Sheriff's Office Pension Trust Funds. Budgets are not adopted for the remaining private purpose trust funds due to their nature. Enterprise Fund, Internal Service Fund and Pension Trust Funds budgets are for management control only. Budgets are adopted using the same basis of accounting as that used for reporting purposes, except for the following:

- o Encumbrances are treated as expenditures for budgetary accounting purposes.
- o Payroll is accrued for financial statement purposes only.
- o Interfund reimbursements are eliminated for financial statement purposes.

## INTRODUCTION

The capital budget reflects appropriations for the Capital Projects Fund at the individual project level. Expenditures and encumbrances may not legally exceed appropriations at that level and the County Council and the County Executive must approve all transfers of appropriations between projects.

A Statement of Revenues, Expenditures, Encumbrances and Changes in Fund Balances, Budget (Non-GAAP) vs. Actual is prepared for each governmental fund with an annual budget. These are the General, Highways, Agricultural Preservation and Parks and Recreation funds.

For the Capital Budget, Fund Balance statements are also included for Transfer and Recordation Taxes.

### **HARFORD COUNTY'S BUDGET POLICIES**

Harford County Charter, Article V, Budget and Finance, Section 503 establishes the "Comprehensive Scope of the Budget". The section states, "The County budget shall consist of the current expense budget, the capital budget and capital program, and the budget message. It shall represent a complete financial plan for the County reflecting all receipts and disbursements from all sources, including all revenues, all expenditures, and the surplus or deficit in the general fund and all special funds of the County government."

#### **Fund Structure**

While Harford County's "Funds" are classified as either Governmental, Propriety or Fiduciary for accounting purposes, "Budget Funds" were established to comply with the Harford County Charter, Article V, Budget and Finance, Section 502 (b) which defines the term "County funds" to mean any monies appropriated or approved by the Council or to which the County may at any time have legal or equitable title."

#### **Capital Budget and Capital Improvement Program**

The Harford County Charter, Section 507, Contents of the Capital Budget and Capital Program, calls for "a statement of the receipts anticipated during the ensuing fiscal year from all borrowing and from other sources for capital projects."

Harford County's Annual Capital Budget details the phase of each project the County has scheduled for the fiscal year's budget. The Capital Improvement Program (CIP) provides the same detail of each for the next five fiscal years. The Capital budget and the CIP are divided into different sections, based on the nature of the project, the funding source, or which department has responsibility.

## INTRODUCTION

- o GENERAL PROJECTS - these include projects funded with County General Fund Paygo, County Bonds, Recordation or Transfer Tax receipts, State, Federal, Developer, or "Other" Funds. The projects are the responsibility of the County Administration, the Sheriff's Office, Emergency Operations, the Volunteer Fire Companies, the Board of Education, Harford Community College, and / or the County's library system.
- o HIGHWAYS PROJECTS - funded with County Highways revenues, Federal, State, Developer, and "Other" Funds. The projects include: roads, bridges, resurfacing and other projects which fall under the purview of the County's Department of Public Works.
- o PARKS AND RECREATION PROJECTS - are those for which the County's Department of Parks and Recreation is directly responsible. They are funded with Recordation Tax receipts, Federal, State, Program Open Space funds, and occasionally County General Fund Paygo as well as Developer funding.
- o WATER AND SEWER PROJECTS - encompass any capital improvements or renovations to the county-owned Water and Sewer System. In addition to Federal and State funds, the projects are supported with revenues derived from developers and system customers. No County General Funds are used for these projects.

The various "Funds", used to record the receipt and application of resources for these projects, are appropriated, spent and recorded separately based on legal requirements, the source, or the nature of the project they provide for. They include:

- o PAY-AS-YOU-GO (PAYGO) - In accordance with the County's Five Year Business Plan's Debt Management policies, Paygo will continue to be used for minor renovation and repair projects which have an asset life of less than ten years.
- o GENERAL OBLIGATION BONDS - Also known as full faith and credit bonds, their quality and payment is based on the general credit and taxing power of the County. The County must take whatever actions are necessary to assure repayment. Typically such bonds are used to finance the capital portion of tax-supported general public purpose governmental activities with schools, libraries, and public safety buildings being the most common uses of bond proceeds.

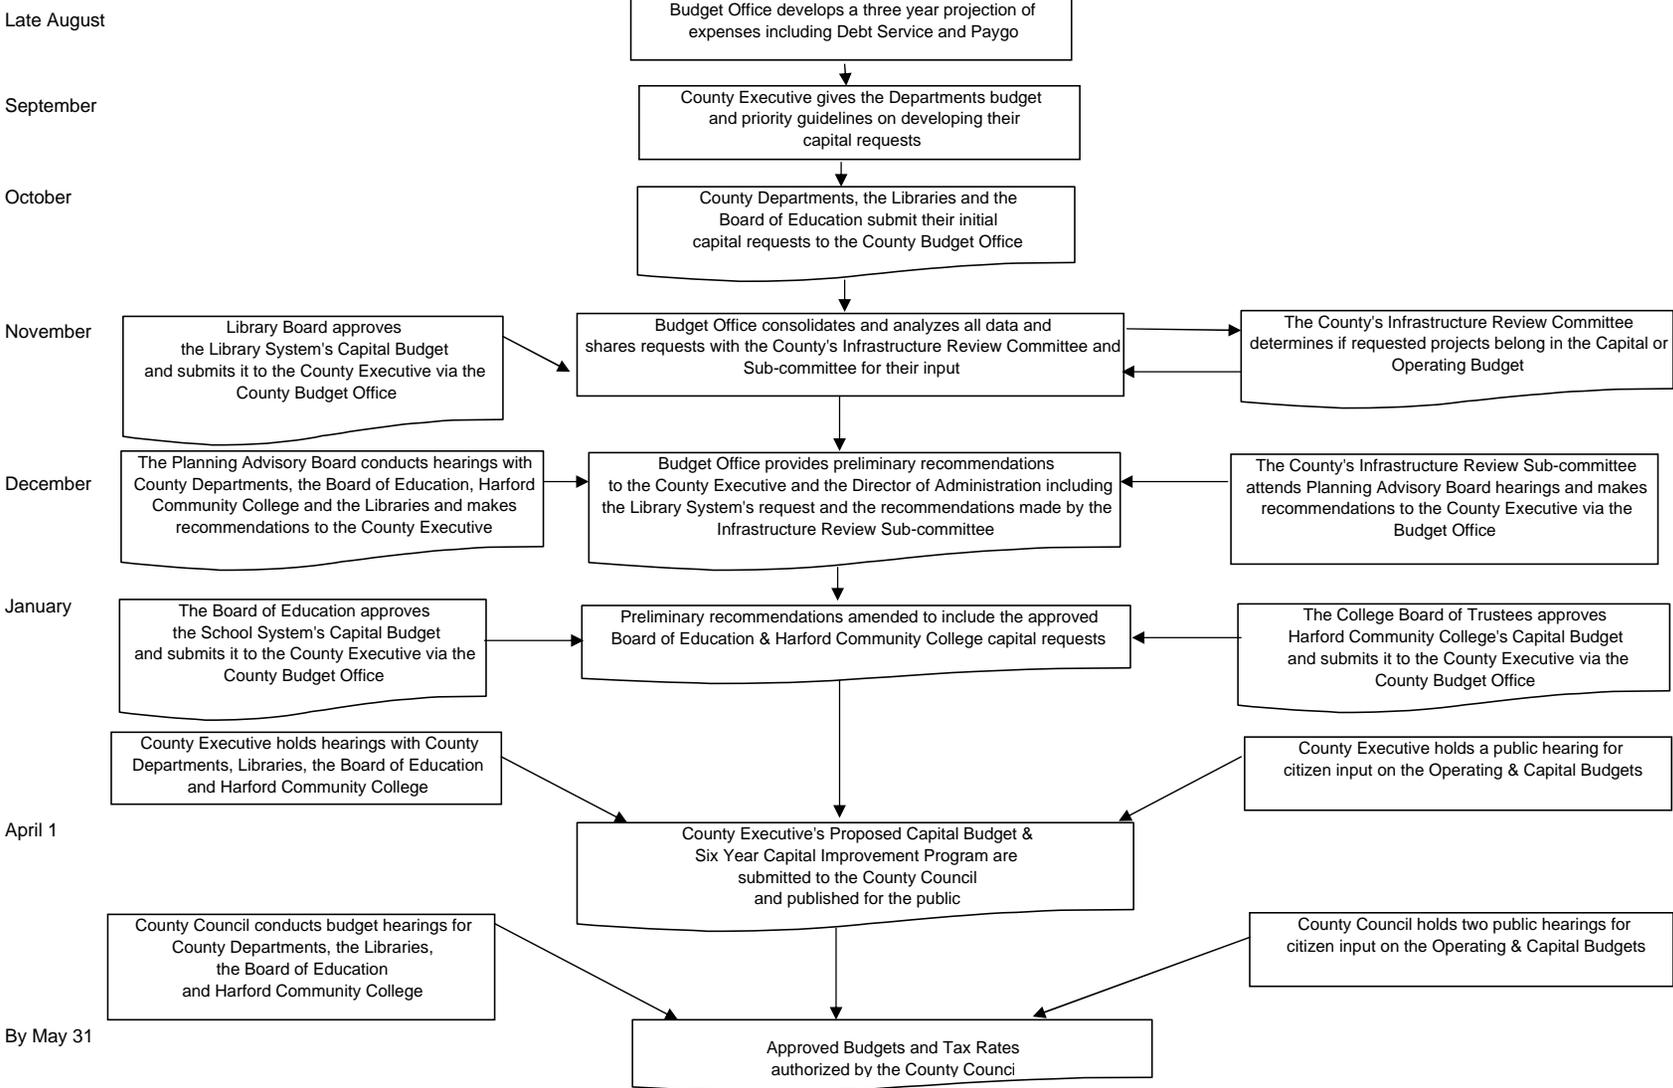

The County went to the bond market November 6, 2007 for a bond sale. The County received and maintained its current ratings of: Fitch Ratings AA+, Standard and Poor's AA+, and Moody's Investors Service Aa1. as published in the County's November 6, 2007 Official Statement.

## INTRODUCTION

- o LEASE FINANCE - Arrangements to secure short-term funding for certain renovations and repair projects and equipment purchase.
- o REAPPROPRIATED - These are reallocated from one project to another.
- o PROGRAM OPEN SPACE - These funds are to support recreation opportunities and come from the State of Maryland through the collection of State Transfer Tax on real property.
- o STATE AID - State funding to assist Harford County in the financing of various capital projects.
- o RECORDATION TAX - A tax imposed on every instrument of writing recorded or offered for record with the Clerk of the Circuit Court (liens, deeds, mortgages, etc.). They are assessed at the rate of \$6.60 per \$1,000 value of recorded instruments filed with the Clerk of the Circuit Court for Harford County. Of this assessed amount, \$4.40 is dedicated for school debt service first, then new construction, major and capital improvements to existing school facilities and portable classrooms; \$1.10 is dedicated to an open space land and recreational fund for the purchase of park lands and development of parks and recreation facilities; and a \$1.10 dedicated for water and sewer debt service.
- o TRANSFER TAX - A 1% Transfer Tax on any instrument of writing that convey title to, or a leasehold interest in, real property. The proceeds are distributed 50% to the County's Agricultural Land Preservation Program, and 50% to fund school site acquisition, school construction or school debt service.
- o PUBLIC SCHOOL DEVELOPMENT IMPACT FEE - Authorized by the State of Maryland, and enacted by the County Council of Harford County, Maryland on June 10, 2005, a new Article VI, Public School Development Impact Fee was added. This fee assures that the cost of public schools necessitated by new development will be supported in whole or in part with the proceeds of development impact fees.
- o DEVELOPER CONTRIBUTIONS - Developer's contributions are applied to projects that provide facilities in approved subdivisions. The developer's contributions represent the developer's portion of the cost of the project.
- o OTHER - There are various other funding sources which may become available. When amounts are material, identifiable, and predictable, they are cited as sources of funding in the capital budget.

# INTRODUCTION

## HARFORD COUNTY'S CAPITAL BUDGET PROCESS

## INTRODUCTION

### The County's Capital Budget Calendar

- o Late August

While Harford County's Capital Program is continuously partnered with the Master Plan and the goals of each administration, the annual capital budget process begins each year in late August. The Budget Office works with the Treasury Department to develop a three year revenue projection, which for the capital budget includes dedicated Transfer and Recordation Tax revenues.

For the expense side of the projection, it is assumed that the Capital Improvement Program (CIP) will remain unchanged and the County will be funding the scheduled projects as planned. Debt Service costs are estimated for the next three years, based on existing debt and the debt that would be incurred to support the CIP. While the expense for principal and interest payments is an Operating Budget item, this analysis provides us with an estimate of how much bond funding can be used for the next few years in the Capital Improvement Program, while adhering to the County's debt policies.

Since a simultaneous revenue analysis is occurring for the County's operating budget, an estimate of fund balance available to be carried over and used for Pay-As-You-Go (Paygo) funds for the upcoming year is developed; estimates for subsequent out year Paygo funds are also developed at this time.

An estimate of available Recordation and Transfer Tax revenues is matched to projected education debt service requirements. Any amounts not needed for those principal and interest payments are applied to school capital projects as Paygo.

- o Early September

Based on the outcome of the revenue and expense projections, the County Executive gives County departments his priority and budget guidelines for developing their capital budget requests.

The County departments compile their capital requests and are required to show if and how each project will impact the operating budget.

- o Early October

The departments turn in their capital budget and CIP requests to the Budget Office. At this time the Libraries and the Board of Education also submit preliminary plans.

## INTRODUCTION

- o November

The Budget office logs in and compiles all requests, which are then shared with the County's newly established Infrastructure Review Committee. This committee has two charges, first they are to develop a master inventory of all County facilities, owned or leased, and to complete a profile of each which includes details such as square footage, date of purchase, lease terms, geographic location, occupants, etc. Our Facilities and Operations Division will complete a systems analysis of each facility in the inventory including mechanical units, HVAC, roofing, etc. This information will be coupled with the other inventory data to provide a comprehensive overview of our sites. The committee's second charge will be part of the County's annual Capital Budget Process. Once the Budget Office forwards its list of initial requests for the upcoming year, this committee will review each project and determine if it should be considered capital or if it is something that could be managed through the Operating Budget. Treasury will also at that time provide the committee with a list of all existing capital projects. Each department will be sent that portion of the list for which they are responsible. They are to report back to the committee the status of each project, and if any are complete, determine if they could be closed, with the remaining funds returned for reappropriation to a future project.

In light of available revenues, the Master Plan, the administrations goals, and operating expenses, the Budget Office analyzes all requests and pertinent data and compiles the preliminary County Capital Budget and CIP.

The Library Board approves the Library System's Capital Budget and it is submitted to the County Executive via the County Budget Office.

- o December

The County has also established an Infrastructure Review Sub-committee (IRS) which is made up of the Director of Administration, the County Treasurer, the Director of Planning and Zoning, the Director of Inspections, Licensing and Permits, and the Chief of Budget and Management Research. In addition to serving on the Infrastructure Review Committee, this group has the additional duties of attending the Planning Advisory Board's annual meetings, where they will monitor the Board's review of each department and agency's projects which will be requested for the upcoming year. At the completion of these meetings the IRS will review and rate each project for its consistency with the Master Plan, its estimated cost, and how vital it may be to attaining the administration's goals and objectives. The inventory master list which will be developed by the Infrastructure Review Committee will also generate a list of systemic issues that need to be addressed. These will be rated by Facilities and Operations in order of which need to be attended to first. The IRS, in light of available revenues will then recommend to the County Executive those capital projects and those systemic upgrades / replacements it deems appropriate for the upcoming fiscal year.

The preliminary County Capital Budget is amended to incorporate the Library's request and the recommendations of the Infrastructure Review Sub-committee. This amended Capital Budget is then provided to the County Executive, the Director of Administration and County departments.

Staff from the County Budget Office and the Department of Treasury meet with the Planning Advisory Board to discuss the County's Capital Budget as it stands at this stage. The Board then submits its recommendations to the County Executive.

## INTRODUCTION

- January

The Board of Education approves the Public School System's Capital Budget and it is submitted to the County Executive via the County Budget Office.

Harford Community College's Capital Budget is approved by their Board of Trustees, and it is submitted to the County Executive via the County Budget Office.

The County Capital Budget is further amended to incorporate the School Board and the College's approved budget requests.

The County Executive conducts hearings with each County department that submits a capital request, as well as with Public School, College and Library administrators. During these hearings each project is discussed, and any questions are answered. If a project has been eliminated from the County's plan or amended from the original request, an appeal can be made for restoration.

A public hearing is held to secure citizen input on both the Operating and Capital Budgets.

- February

Once revenue estimates are revisited and revised, both Operating and Capital Budget issues are reviewed by the County Executive, the Director of Administration, the Budget Office, and the County Treasurer. The County Executive then makes his final decisions as to which projects he will propose for the upcoming fiscal year and for the subsequent five fiscal years. The County Executive also determines the amount of funding each project will receive.

- Late February through late March

The Budget Office finalizes all Operating and Capital Budget documents, and prepares the legislation necessary to send the County Executive's Proposed Budgets to the County Council.

- April 1

The Harford County Charter requires the Proposed Operating and Capital Budgets to be submitted by the County Executive to the County Council by April 1st of each year.

- April through May

The County Council conducts budget hearings with County departments, the Board of Education, Harford Community College, and the Libraries.

By Charter requirement, the County Council must hold two public hearings on the Operating and Capital Budgets to secure citizen input.

The Council may cut funding from any project, and they may reallocate those funds to a Board of Education project and / or the Board's operating funds. The Council cannot however adjust revenue estimates, and cannot add another project nor increase funding for any project without identifying the additional revenues to support such a change.

- May 31

The County Charter requires the County Council to approve the upcoming fiscal year's Operating and Capital Budgets and to set the necessary tax rates by May 31st of each year.

## INTRODUCTION

### Outside Agencies

A significant portion of Harford County's Annual Capital Budget and Six Year Capital Improvement Program (CIP) is dedicated to "Outside Agencies." These agencies are the Harford County Public School System, the Library System and Harford Community College. County funds are also a large and / or major source of financing the capital budgets and CIPs of each of these organizations, yet these agencies are independent of the County Government. Each has its own administration and board which develop their policies, plans and budgets; they have their own budget processes and calendars. The Board of Education and the College also receive a significant percentage of capital funding from the State of Maryland, which necessitates their annual process be designed to meet State budget deadlines.

With the varied deadlines, which the Outside Agencies are required to meet from the State and / or their boards, incorporating their annual requests with the County's Capital Budget is difficult at best. While the County does get preliminary budgets from the Board of Education and the Libraries early in our process, we do not receive their formal requests until just before the County Executive has to finalize his Proposed Budget to send to the County Council; and it is at that time we receive the first request from Harford Community College. Until the College's board approves their capital budget, the County must assume that the current fiscal year's CIP will remain in tact, and those projects scheduled for the upcoming fiscal year will still be requested and done so at the same funding levels.

It is only after the Proposed Budget has been sent to the County Council that we get any information from the State as to which capital projects have been included in the State General Assembly's Budget and at what funding level.

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	OPERATING BUDGET IMPACT
<b><u>GENERAL COUNTY:</u></b>  Computer Equipment / Networks	15,040,784	500,000	This is a multi-year project providing funds to purchase new and refresh computer equipment, Storage Area Network (SAN) and networks.	The refresh program for computer hardware and software will maintain an efficient workforce, with an impact to the operating budget of \$100,000 or less. This program will facilitate increasing needs of government capacity and maintain a useful, secure environment.
<b><u>SHERIFF / EMERGENCY / FIRE:</u></b>  <b><u>SHERIFF</u></b>  Computer Equipment / Networks	1,454,242	363,225	This project will provide funding to replace computer hardware through natural attrition, as well as to purchase equipment to provide disaster recovery for the Sheriff's Office networks.	The projected operating budget increase is approximately \$37,550 to cover monthly costs associated with disaster recovery redundancy for Harford County Sheriff's Office networks.
Detention Center Expansion	29,358,131	15,922,131	Funding provides for programming, design and construction of a 288 bed expansion for medium security level male and female inmates. The new addition is proposed at 86,455 gross square feet.	Upon completion of project, additional operating costs are estimated at \$5,587,113 Additional staff (54 Correctional Officers) @ \$4,285,008 Contractual services @ \$810,091 Supplies & Materials @ \$492,014
<b><u>EMERGENCY</u></b>  Expansion / Renovation of Emergency Operations Center	15,807,021	5,000,000	This project provides for the renovation of the first floor and addition of a second floor to the existing Emergency Operations Center (EOC) facility.	Impact to the operating budget will be for all costs associated with the operation and maintenance of the new addition to the facility.
911 State Fee Fund	600,000	100,000	This project merely provides appropriation authority to accept State funds derived from a twenty-five cent charge on all 911 emergency calls. The County qualifies for reimbursement on certain equipment and furnishings.	This project has the potential for the County to be reimbursed up to \$100,000 each year for the purchase of certain items which qualify for State funding, subsequently freeing up County operating dollars.
700 MHz Wireless Radio System Equipment	250,000	250,000	This project provides funding for engineering services and equipment at a pilot site to test the integration of 700 MHz frequencies with existing 800 MHz system.	The impact to the operating budget will be for associated costs in the operation of the test, as well as the additional radio channels required to handle the increased call volume.

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	OPERATING BUDGET IMPACT
<b><u>PARKS &amp; RECREATION:</u></b>				
Athletic Field Improvements	22,050,000	3,900,000	Funds are provided to propose major improvements to athletic fields at various locations by installing artificial turf.	Projects will include high school stadium fields which would then be available for a broad range of athletic activities for both school teams and Recreation Councils. Maintenance costs are to be expected for upkeep of fields.
Churchville Complex Development	7,336,830	4,251,830	Funds are provided in FY 09 for the construction of a library / recreation building. Future projects include construction of a nature trail and additional active recreation facilities.	This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations. The operating impact should remain at less than \$100,000.
Enlarged Gymnasiums & Activity Rooms	7,200,000	1,200,000	This project provides funding for the construction of enlarged gymnasiums, activity rooms, and recreation storage at Harford County Public School sites. For FY 09, construction of a new gymnasium is planned for Prospect Mill Elementary School, which will also include bleachers and storage space.	Operating impact should remain less than \$100,000, and will provide for ongoing operation and maintenance of enlarged gymnasiums, activity rooms, and storage areas.
Heavenly Waters Park	1,920,000	350,000	Funds are allocated in this project for rehabilitation of the existing pond, including replacement to the riser and repairs to the embankment. A joint project of the Parks and Recreation and the Office on Aging will construct a multi-use building with a woodshop for senior citizens and others, restrooms for trail users and showers for the Farm Fair participants.	The impact on the Operating budget will be less than \$100,000 with a part time position assigned to the Park.
Playground Equipment	4,895,000	270,000	This project provides funding for the purchase and installation of equipment at park areas and schools County-wide.	Funding also includes contributions from Harford County Public Schools, Parent-Teacher Associations, nonprofit foundations and other groups. The impact on operating will be less than \$100,000 with maintenance and upkeep of equipment.
Regional Field Sports Complex	5,301,000	500,000	This project proposes the construction of a regional field sports park at Cedar Lane Park. Phase I includes engineering, a football field, a baseball diamond, twelve soccer / lacrosse / hockey fields, and associated parking and road improvements. Phase II will include a restroom / storage building.	After completion, maintenance staff will be required to mow and maintain fields and restroom / storage building. The operating impact is anticipated to remain below \$100,000.
Swan Harbor Farm Improvements	3,608,000	183,000	This project provides funding for renovations and improvements at Swan Harbor Farm. FY 09 funds will be used for amenities in conjunction with the pier such as lighting, landscaping, and shoreline stabilization, etc.	The impact on Operating will remain less than \$100,000, with continuous upkeep and maintenance of the improvements at the Farm.

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**BOARD OF EDUCATION**

**PROJECTS TO DEAL WITH CAPACITY ISSUES**

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE
Aberdeen High School Addition	8,503,000	2,218,055	This project is a 12 classroom addition to the Aberdeen High School replacement facility constructed in 2004. Based on capacity needs, it adds 18,050 square feet to the building and increases capacity from 1,360 to 1,615.
Bel Air High School Replacement	82,503,524	33,563,210	This project provides funds to construct a replacement for Bel Air High School. As one of the four oldest high schools, Bel Air High School was ranked as first priority requiring facility upgrades. The project capacity has been sized at 1,668 students.
Deerfield Elementary School Modernization / Addition	31,059,926	15,385,772	The project scope is based on a full replacement of the school. The recommended capacity expansion is from 555 students to 690, the State rated capacity does not currently reflect its functional capacity.
Edgewood High School Replacement	85,807,283	38,963,926	This project will provide for a replacement school on the current site which will increase capacity from 1,380 to 1,600. The current building will be demolished and replaced with design concept based on a modified Aberdeen High School prototype.
Joppatowne Elementary School Modernization / Addition	23,157,145	9,534,309	This project proposes modernization to Joppatowne Elementary School to expand capacity from 547 to 653 students. The project scope is based on a full modernization, with an enlarged gymnasium, Parks and Recreation storage, and a volunteer work room.
Relocatable Classrooms	2,068,000	188,000	Increased student enrollments in the County will require the movement and placement of relocatable classrooms to provide relief to seriously overcrowded schools. This project funds the costs to move eight to ten relocatable units.
Schuck's Road Elementary School New School	30,924,129	2,600,000	Intensive development along the Rt. 543 / Fountain Green corridor is creating capacity issues to the north and east of Bel Air. This site was recently purchased by Harford County Government for the purpose of building an elementary school. FY 09 funds will provide for continued site investigation and engineering / design work.
Vale Road Elementary	32,182,854	10,035,923	Site approval is in the process for a new school to relieve Bel Air capacity issues in elementary schools. Design funding was funded in previous budgets, and an architectural / engineering team has been selected. This building will be modeled as a sustainable building without seeking LEED certification and to achieve maximum energy savings.

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING						
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14	
<b><u>GENERAL:</u></b>										
Agricultural Resource Center and Horse Park	25,000	25,000	Funds will provide for a scope study for the Agricultural Resource Center and Horse Park.	25,000						
Cultural Arts Center	25,000	25,000	Funds will provide for a scope study for a Cultural Arts Center.	25,000						
Harford County Southern Resource Annex	13,749,200	5,750,000	This project will plan, design, and construct several governmental type structures in the Edgewood community, to include a Southern Precinct for the Sheriff's office and a building to house functions of the Health Department.	5,750,000	5,750,000					
Site Acquisition and Site Development	26,757,761	2,000,000	This project proposes the acquisition of real property to be used as future sites for schools, parks and recreation complexes, libraries, public work facilities, etc. Once properties are purchased, an engineering firm is engaged to provide site design and development necessary to determine aspects of the property which will dictate where the infrastructure is located.	2,000,000		6,000,000				
Replacement of Fleet Services Building	7,150,000	0	This project provides for the design and construction of a replacement facility to accommodate the size and diversity of the County's fleet.		650,000	3,250,000	3,250,000			
<b><u>SOLID WASTE:</u></b>										
HWDC Expansion	21,214,340	3,088,213	Funding will provide for permitting, engineering, construction, acquisition, etc., for the future landfill expansion of the Harford Waste Disposal Center.	2,100,000	500,000	3,450,000	2,975,000	500,000	500,000	
<b><u>SHERIFF / EMERGENCY / FIRE:</u></b>										
<b><u>SHERIFF</u></b>										
Detention Center Expansion	29,358,131	15,922,131	This project will allow for design and construction of a 288 bed expansion for medium security level male and female inmates.	9,585,839						
<b><u>EMERGENCY</u></b>										
Expansion / Renovation of Emergency Operations Center	15,807,021	5,000,000	Funds provided to renovate the first floor and add a second floor to the existing Emergency Operations Center facility.	5,000,000	4,758,748	4,758,748				

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING						
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14	
<b><u>FIRE</u></b> Bel Air Substation Patterson Mill	1,783,800	285,400	The project provides full funding for the new substation at Patterson Mill.		1,498,400					
<b><u>HARFORD COMMUNITY COLLEGE:</u></b> Aberdeen Hall Renovations and Expansion	14,144,106	1,571,939	This renovation and expansion will increase capacity through phased construction for completion by Fall 2009. Most scientific technology has undergone vast change, therefore laboratories must be upgraded for teaching.	660,214						
Roof Replacements	910,282	910,282	The roof systems at the Student Center, Chesapeake Center, and Joppa Hall are all flat, built up modified systems which last received major attention between 1988 and 1990. These roofs have undergone partial replacement or restoration processes to extend their useful life. Given the lifespan of the roofs, this requires planning for a replacement strategy to ensure all roofing systems are kept safe and structurally sound.	546,169						
Site and Parking Lot Improvements	4,406,162	788,751	This project provides funding for the replacement, installation, and repair of campus parking lots, roadways, and sidewalks.	473,251	489,875					
Susquehanna Center Additions / Renovations	24,349,604	0	Improvements to this facility include expanded / modernized classrooms; labs and activity rooms; additional space for faculty and staff; and modern infrastructure to replace mechanical, electrical, and plumbing systems. Additions will also include a smaller therapeutic pool, new labs and activity rooms, multipurpose courts, and a sports practice area.		4,552,838	4,406,538				

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING					
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
<b><u>LIBRARIES:</u></b>									
Churchville Recreation Complex	5,584,500	5,362,500	This project proposes joint development of the Churchville Recreation Complex. Parks and Recreation and Harford County Public Library would build and share a 20,000 square foot complex, which will include the County's first Science Learning Center. This complex will be constructed as a green building with a goal to receive silver LEED certification.	5,112,500					
Whiteford Library Expansion	4,238,200	2,633,400	This project provides for the design and construction of an addition to the existing Whiteford Branch to include the building and parking lot.	2,633,400					
Aberdeen Expansion	2,137,000	0	This project would add 5,000 square feet to the Aberdeen library. The staff work area and yard area would be expanded, as well as the addition of a drive thru window.				1,972,000		
Havre de Grace Expansion	4,230,000	0	This project will increase the square feet of the Havre de Grace branch from 8,420 to 14,000. With the impact of BRAC and the close proximity of APG, this branch will be more crowded.			3,870,000			
<b><u>BOARD OF EDUCATION:</u></b>									
Aberdeen High School Addition	8,503,000	6,284,945	This project provides for a twelve classroom addition to the Aberdeen High School replacement facility constructed in 2004. Based on capacity needs, it adds 18,050 square feet to the building and increases capacity from 1,360 to 1,615.	2,218,055					
Bel Air High School Replacement	82,503,524	37,542,514	This project provides for the total replacement of Bel Air High School, based on a physical condition study, scope study, and feasibility study.	31,221,380	11,397,800				

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING					
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
<b><u>BOARD OF EDUCATION:</u></b>									
Deerfield Elementary School Modernization	31,059,926	15,385,772	The project scope is based on a full replacement of the school. The recommended capacity expansion is from 555 to 690 students. The State rated capacity does not reflect its functional capacity. It has been approved as a replacement school in lieu of modernization.	15,385,772	754,401				
Edgewood High School Replacement	85,807,283	38,963,926	The project will provide for a replacement school on the current site which will increase capacity from 1,380 to 1,600. Site exploration and feasibility studies must be performed to determine final scope.	38,963,926	24,803,585				
Harford Technical High School Field Improvements	5,000,000	1,700,000	This project provides for the redevelopment of athletic fields on the Harford Technical campus, and for the construction of a football field.	1,700,000					
Jarrettsville Elementary School HVAC	300,000	300,000	This project provides for full modernization of a two building campus. FY 09 funding will provide for a rooftop replacement for the Kindergarten building.	121,250					
Joppatowne Elementary School Modernization/ Addition	23,157,145	9,534,309	This project scope is based on full modernization, as well as an enlarged gymnasium, Parks and Recreation storage, and a volunteer work room. The capacity expansion from 547 to 653 students was recommended and approved by the State in FY 08.	2,995,309	647,459				
Roof Replacement (Fallston High School)	8,779,045	1,464,000	This project provides for replacement of roof systems to prevent continuing damage to the building interior and indoor air quality issues.	525,182	523,687	398,906	649,929	331,968	751,216
Schuck's Road Elementary School New School	30,924,129	2,600,000	Funds are provided for the continuation of site investigation and design work for a new elementary school to relieve capacity problems due to intensive development in the Rt. 543 / Fountain Green corridor.	2,600,000	5,675,675	9,258,074			
Vale Road Elementary	32,182,854	10,035,923	Funds are provided for the completion of engineering and design, and construction of a new elementary school, to relieve overcapacity at schools to the north and east of Bel Air.	7,705,923	8,671,952				

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING							
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14		
<b><u>BOARD OF EDUCATION:</u></b>											
Center for Career Opportunity Building	7,815,000	0	This project provides funding for renovations to include full HVAC replacement with air conditioning, ceiling, window and door replacement, ADA accessibility, and minor interior modifications.			7,150,000					
Homestead / Wakefield ES Modernization	33,603,692	0	This project will provide funding for full modernization of a two building campus.		2,000,000	5,900,003	5,900,004	2,899,361			
John Archer at Bel Air Middle School	25,040,317	0	Funds will provide for a facility for approximately 160 medically fragile and severely disabled students. The addition is proposed to attach to the Bel Air Middle School facility. This project is in the process of preparing an educational specification that incorporates inclusion between regular educational facilities within the campus.		2,000,000	5,622,849	5,622,849	5,622,850			
Joppatowne High School Addition	560,000	0	Funding will provide for an addition to the Joppatowne High School.		560,000						
William Paca / Old Post Elementary School	41,325,277	0	This project provides funding for a full modernization of a two building campus, with 112,417 square feet. The need arises due to the age of the infrastructure and programmatic spatial requirements.			2,000,000	7,782,903	7,782,903	5,496,447		
Youth's Benefit Elementary School	40,743,243	0	This project provides funding for a replacement building of what is currently a two building campus.		1,250,000	8,296,622	8,296,622	855,211			

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

**INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:**

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING					
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
<b><u>PARKS &amp; RECREATION:</u></b>									
Athletic Field Improvements	22,050,000	3,900,000	This project proposes major improvements to athletic fields at various locations throughout the County by the installation of artificial turf.	2,000,000	2,000,000	2,100,000	2,100,000	2,200,000	1,200,000
Churchville Complex Development	7,336,830	4,251,830	This project proposes the further development of the Churchville Recreation Complex. The construction of a library / recreation building is planned as a joint project with Harford County Public Library for construction in FY 09.	4,001,830					
Enlarged Gymnasiums and Activity Rooms	7,200,000	1,200,000	This project provides funds for the construction of enlarged gymnasiums, activity rooms, and recreation storage at Harford County Public School sites.	1,200,000	600,000	1,200,000	600,000	600,000	600,000
Fallston Senior Recreation Center	10,725,000	9,400,000	This project provides for a multipurpose center to serve leisure needs for all ages in the Fallston communities.	8,200,000					
Heavenly Waters Park	1,920,000	350,000	This project provides for the development of Heavenly Waters Park. A joint project between Parks and Recreation and the Office on Aging will construct a multi-use building with a woodshop for senior citizens and others, and rest-rooms for trail users with showers for the Farm Fair participants.	350,000					
Magnolia Complex Development	3,610,000	650,000	This project proposes the development of additional athletic fields on vacant land adjacent to Magnolia Elementary and Middle Schools.	650,000					
Swan Harbor Farm Improvements	3,608,000	183,000	This project provides funding for renovations and improvements at Swan Harbor Farm. FY 09 funds will be used for amenities in conjunction with the pier, such as lighting, landscaping, and shoreline stabilization.			1,050,000			
Vale Road Elementary Facilities	2,120,000	1,400,000	This project will provide funding for athletic facilities constructed at the new elementary school on Vale road. Facilities will be available for community recreation use. Storage facilities and other amenities will be needed in the future.	1,300,000					
Bush River Boat Launch	4,260,000	0	This project provides funds for a new boat launching ramp on the Bush River.		2,000,000				

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING						
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14	
<b>PARKS &amp; RECREATION:</b>										
Edgeley Grove Farm	7,130,000	0	This project proposes the construction of recreation facilities at Edgeley Grove Farm. Additional parking is planned for FY 2010, along with renovation of the existing farm pond and construction of a community amphitheatre.		1,000,000					
Jarrettsville Recreation Center	6,400,000	0	This project will provide funds for a multipurpose center to serve the leisure needs for all in the Jarrettsville community. The center will include a gymnasium, fitness room, and multipurpose rooms.		5,000,000					
Schucks Road Regional Complex	12,750,000	0	This project proposes the development of a 71 acre site centrally located in Harford County. Design is underway as a coordinated effort with Harford County Public Schools and the Department of Public Works for the park, school, and road improvements.		900,000	7,200,000				
			<b>Total Planned 20 Year General Fund Bonds</b>	<b>155,050,000</b>	<b>87,984,420</b>	<b>75,911,740</b>	<b>39,149,307</b>	<b>20,792,293</b>	<b>8,547,663</b>	

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

**INCLUDED IN THE FY 09 CAPITAL IMPROVEMENT PROGRAM ARE 67 PROJECTS SLATED TO BE FUNDED WITH FUTURE COUNTY BONDS PAYABLE OVER 20 YEARS. THESE WILL IMPACT FUTURE OPERATING BUDGETS WITH PRINCIPAL, INTEREST AND SERVICE COST EXPENSES:**

PROJECT TITLE	TOTAL PROJECT COST	FY 09 BUDGET	PURPOSE	PLANNED FOR 20 YEAR BOND FUNDING					
				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
<b><u>WATER &amp; SEWER:</u></b>									
<b><u>WATER</u></b>									
Abingdon Road Water Main Parallel	8,300,000	7,800,000	This project will allow for the design and construction of 7,495 linear feet of water transmission main parallel from Rt. 7 to U.S. Route 40.	7,800,000					
Chlorine Replacement Program Water Treatment Plant	720,000	100,000	This project will allow for the design and construction of gaseous chlorine conversion alternatives for the County's Perryman Water Treatment Plant and the Havre de Grace Water Treatment Plant.	100,000					
Rt. 1 Hickory Bypass Transmission	875,000	190,000	This project is to allow for the design and construction of approximately 2,500 linear feet of 16" water transmission main from Hickory Outlook Phase III to Vineyard Oaks North, along the right of way of the Hickory Bypass.	190,000	685,000				
Tollgate Road Water Main Parallel	1,300,000	1,300,000	This project will allow for the updated design and construction of approximately 3,100 linear feet of 24" water transmission main parallel from Wheel Road to Evermar Farms.	1,300,000					
Havre de Grace Water Treatment Plant Upgrade	1,750,000	0	This project will allow for the addition of the third treatment unit and various upgrades to the existing plant to replace the capacity of the system as the City of Havre de Grace buys their water supply capacity back within the terms of the 1980's agreement.			250,000		1,500,000	
Rt. 7 Transmission Parallel Phase 1	1,075,000	0	This project shall allow for the design and construction of approximately 2,000 linear feet of 12" water main from Edgewood Rd. to Fashion Way.				300,000	775,000	
Route 24 Water Transmission	16,660,000	0	This is a multiphase project which will allow for the planning, permitting, design, and construction of approximately 30,000 linear feet of 24" water transmission main from Plumtree Road to Bynum Tank.			1,500,000		4,300,000	
Rt. 40 Water Parallel	725,000	0	This project will allow for the design and construction of approximately 1,250 linear feet of 12 inch water parallel along Rt. 40 from Edgewood Road to the Ames shopping center.					275,000	450,000

**CAPITAL PROJECTS WHICH IMPACT THE OPERATING BUDGET**

**PROJECTS IMPACTING DEBT SERVICE**

				FY 09	FY 10	FY 11	FY 12	FY 13	FY 14
<b><u>WATER &amp; SEWER:</u></b>									
<b><u>SEWER</u></b>									
Bush Creek Pump Station 4th Pump	25,000,000	6,740,000	This project shall allow for the design and installation of the fourth pump to the pump station.	6,740,000	12,400,000		5,000,000		
Bynum Run Parallel Phase 6 & 7	15,495,000	300,000	This project will allow for the design, permitting, and construction of a parallel to the existing Bynum Run Interceptor.	300,000	620,000		8,225,000	6,350,000	
Haverhill Pump Station Replacement	1,025,000	725,000	This project shall allow for the design and construction of a replacement pump station on Haverhill Road. This project entails a complete pump station replacement including wetwell, suction lift pump station, control building, emergency generator, water meter, and other ancillary equipment.	725,000					
Lower Bynum Run Parallel	9,640,000	3,800,000	This project will allow for the construction of a parallel to the existing Bynum Run Interceptor, from the Bush Creek pump station to manhole #20, approximately 5,500 linear feet of 36 inch new sewer construction.	3,800,000					
Riviera Drive Pump Station Replacement	750,000	550,000	This project shall allow for the design and construction of a replacement pump station on Riviera Drive.	550,000					
Winters Run Pump Station Outfall	1,760,000	1,550,000	This project will allow for the design and construction of approximately 2,200 linear feet of 24 inch sewer parallel to provide sufficient capacity of both Winters Run Force Mains.	1,550,000

## **FISCAL YEAR 2009 CAPITAL BUDGET HIGHLIGHTS**

### **FISCAL YEAR 2009 CAPITAL BUDGET OVERVIEW**

Although there is a standardized "Annual Budget Process," the development of each year's budget is based on: current and projected economic conditions; operational needs; the wants of the citizens; and legislated mandates, coupled with the strategic plans, fiscal policies, and management techniques adopted by the Administration.

We monitor revenue trends and re-evaluate our projections throughout the year. This analysis, along with recommendations from our Spending Affordability Committee, provides the Administration with the knowledge of not only how much funding in total is available to allocate in the upcoming budget, but with data as to the source of the revenue, its trends, and whether the funds are "One-time" or "On-going" in nature. The Administration is committed to spending only what we can afford. We will incur debt only when we are confident that sustainable resources will be available to retire that debt. We will appropriate "One-time" revenues for "One-time" expenses only; and we will not commit to future expenses without identifying revenues which will be available to support them.

The Approved Fiscal Year 2009 Capital Budget consists of 146 projects at a total cost of \$268,935,543. This budget supports our most pressing challenges: school capacity and modernization issues, public safety, sustaining a strong infrastructure, and the environment.

Of the \$127 million appropriated for Board of Education FY 2009 Capital Projects, \$112,489,195 is dedicated to these most challenging issues. In addition \$16,523,316 is included in the General Projects portion of the budget for School Debt Service payments. FY 09 funding for Board of Education projects and debt service equals \$143,805,511 which is 64.1% of the FY 09 Capital Budget supported by General Funds and 53.5% of the All Funds Total Capital Budget.

As the Capital Improvement Program now stands, 67% of new General Obligation debt service expense for the next fiscal year is attributable to the Board of Education projects. Harford County has often been cited for our low debt ratios, as evidenced in our most recently reaffirmed bond ratings, which cited our low debt burden and manageable capital needs. A desire to meet demands for school capital funding must be tempered with the need to also maintain other public facilities. Increased bond funding cannot always be the answer, nor can bonds be used for every type of project.

In order to augment funds needed for school capital projects, the County Council enacted, Bill No. 05-21, as amended which added Article VI, Public School Development Impact Fee to Chapter 123, Finance and Taxation, of the Harford County Code. This approved budget will be the fourth fiscal year that this new fee will be in place generating additional revenue to school construction activity. In Fiscal Year 2007 the impact fee generated \$4,700,428 and is estimated to generate another \$2,820,257 in Fiscal Year 2008. The estimate for Fiscal Year 2009 is \$2,601,687 reflecting an anticipated continuation of the housing slowdown for this fiscal year.

## **FISCAL YEAR 2009 CAPITAL BUDGET HIGHLIGHTS**

In prior years \$6 million in impact fee revenue was appropriated for the new Patterson Mill Middle / High School. These funds can only be used for new construction that is attributable to population growth. For FY 09 \$2 million in impact fees are appropriated for the new Vale Road Elementary School.

The County imposes a Recordation Tax on home sales and refinances, and a Transfer Tax on the sale of new or existing homes. Each of these generate revenues that are in part restricted to school construction and/or school debt service. (Pages 77 through 81 of this section contain a description of Recordation and Transfer Tax history and restrictions; pages 83 and 84 detail how these revenues are allocated for FY 09.) With a significant drop in home sales and construction being realized nationwide, these funds are projected at much reduced levels for FY 09 over recent fiscal year appropriations.

### **FISCAL YEAR 2009 EXPENDITURES**

The following is a brief highlight of capital projects planned for Fiscal Year 2009.

#### **General Capital Projects**

The County Capital Budget contains 13 General projects for FY 2009, totaling \$27,122,759. Some of these projects include funds to enhance security at County facilities and fuel dispensing sites, the purchase or replacement of computer hardware and software, Board of Education Debt Service, a scope study for an Agricultural Resource Center and Horse Park, as well as a Cultural Arts Center; assessment and review of our Information Technology organization and infrastructure; an expanded auditorium for the new Bel Air High School for use by community groups; a Southern Resource Annex campus for a new Southern Sheriff's Office Precinct and other community services; an investigation of water infiltration issues between the old and new Courthouse; authority to accept Federal Community Development Block Grant funds and investment income to annually pay the principal amount of the Washington Court HUD 108 loan; and an allocation for the acquisition of real property to be used as sites for schools, Parks and Recreation complexes, libraries, and public works facilities.

#### **Solid Waste Services Projects**

The Solid Waste Services Capital Budget contains one project for FY 2009 in the amount of \$3,088,213 for the expansion of the Harford Waste Disposal Center (HWDC).

## **FISCAL YEAR 2009 CAPITAL BUDGET HIGHLIGHTS**

### **Water Resources Projects**

The FY 2009 Water Resources Capital Budget amounts to \$2,300,000. Under the National Pollutant Discharge Elimination System (NPDES) Permit, the County must assess potential watershed projects and then restore and improve watersheds to reduce pollutants and improve water quality. A total of eight projects are included and provide for stream restoration and stabilization, the retrofit of stormwater management facilities, the annual maintenance of County owned dams, and the installation and operation of new U.S. Geological Survey (USGS) stream gage stations.

### **Sheriff / Emergency / Fire Projects**

The FY 2009 Capital Budget includes funding in the amount of \$23,671,756 for public safety. Two projects for the Sheriff's Office provide for computer equipment; and expansion / upgrades / repair to the Detention Center. There are four projects planned for the Emergency Operations Center, including funding to renovate and expand the existing EOC facility; funding for engineering services and equipment at a pilot site to test the integration of the 700 MHz frequencies with the existing 800 MHz system; replacement of network storage servers, and computer equipment at fire houses; and a project providing appropriation authority to accept State funds derived from a seventy-five cent charge on all 911 calls which qualifies the County to be reimbursed for certain equipment and furnishings. There are also five projects for the Volunteer Fire Companies, including renovation and expansion funding for the Susquehanna Hose Company's House #5; funding for a new substation at Patterson Mill; renovation of the Norrisville Station; replacement of Self Contained Breathing Apparatus (SCBA) equipment; and an allocation for systemic repairs, roof, paving, HVAC and other minor renovations of selected facilities.

### **Harford Community College Projects**

There are seven Capital projects planned for FY 2009 for Harford Community College, totaling \$4,394,972. These projects include computer technology upgrades; site, parking lot, utility and infrastructure improvements; upgrade of the science labs in Aberdeen Hall; preservation of the foundations and upgrade of the mechanical systems in the Hays-Heighe House; acquisition, implementation, and training to support the second phase of a network security camera system; and funding for a phase of site work in preparation for facilities construction on the West Campus.

## **FISCAL YEAR 2009 CAPITAL BUDGET HIGHLIGHTS**

### **Library Projects**

The FY 2009 Capital Budget for the Libraries includes five projects, totaling \$8,395,900. This funding will provide for maintenance and repair of various facilities; replacement of the HVAC at the Aberdeen branch; securing hardware and software; construction of an expansion to the Whiteford branch; and joint development with Parks and Recreation of the Churchville Recreation Complex to include a library, this building will be constructed as a green building with a goal to receive silver Leadership in Energy and Environmental Design (LEED) certification.

### **Board of Education Projects**

The Board of Education FY 2009 Capital Budget has 32 planned projects, totaling \$127,282,195. These projects provide for athletic field repairs; paving overlay and maintenance; playground equipment; replacement of bleachers, lockers, and other equipment and furniture; textbooks; relocatable classrooms; replacement buses and vehicles; and general upgrades in areas such as security, ADA requirements, roofs and mechanical systems, music instruments and technology; plus renovations to aging schools.

The remainder of the projects include a 12 classroom addition to Aberdeen High School, increasing its capacity from 1,360 to 1,615 students; replacement of Bel Air High School and Edgewood High School; modernization and expansion of Deerfield Elementary; construction of the new Vale Road Elementary School; site investigation for the Schucks Road Elementary School; construction funds to modernize and expand Joppatowne Elementary School; construction funding for the redevelopment of athletic fields at Harford Technical High School; and a scope study to develop an adaptive use of the 45 East Gordon Street building; and required site improvement to the Bel Air Elementary School to include parking.

### **Parks and Recreation Projects**

There are 29 projects in the Parks and Recreation FY 2009 Capital Budget, totaling \$28,064,330. Some highlights include the acquisition of park land; the purchase of playground equipment; developing fields and complexes; athletic fields improvements; dredging at Tydings Island; Swan Creek and Joppatowne area waterways; rehabilitation of and improvements to various parks; a new, enlarged gymnasium for Prospect Mill Elementary School; development of a multiuse building with woodshop and other rehabilitation at Heavenly Waters Park; site investigation and engineering of the development of Nuttal Avenue Park; construction of a Regional Field Sports Complex at Cedar Lane Park; a multipurpose center to serve leisure needs for all ages in the Fallston community; construction of athletic facilities in conjunction with the new elementary school planned for Vale Road; construction of a joint project with the Harford County Public Library for the Churchville Recreation Complex; and resurfacing and reconstruction of tennis and multipurpose courts.

**FISCAL YEAR 2009  
CAPITAL BUDGET HIGHLIGHTS**

**Highways Projects**

Funding for Highways projects is usually derived from dedicated revenues, developer contributions, and Federal grants. The majority of revenues available to the Highways Fund are generated from the County's Property Tax differential (\$0.156 per \$100 of assessed property value outside the three municipalities).

The Highways Capital Budget is divided into four sections: Bridges, Roadways, Resurfacing, and "Other". The total of all four sections for FY 2009 is \$16,585,418.

Bridges - There are 11 projects planned for the repair, replacement, and rehabilitation of bridges. There is also funding for bridge painting.

Roads - There are six projects planned for roadways around the county. These will include improvements to various roads and intersections.

Resurfacing - There is over \$6 million allocated in the FY 09 budget for the Resurfacing Roadways program.

Other - There are six projects that fall under the "Other" section of Highways. These include land acquisition to create an additional highways maintenance facility or relocate an existing facility, computer equipment upgrades, drainage improvements, guardrails, new roads and storm drains, plus culvert rehabilitation.

**Water Projects**

There are six Water projects planned for the FY 2009 Capital Budget, totaling \$9,815,000. These projects include general improvements within the Harford County Water Service Area; tank painting; design and construction of the Abingdon Road and Tollgate Road Water Main Parallels as well as a Route 1 Hickory Bypass Transmission Line; and a chlorine replacement program for water treatment plants

**Sewer Projects**

The FY 2009 Capital Budget also includes ten Sewer projects, totaling \$18,215,000. Highlights include sewer, parallel and pumping station replacements; removal of excessive infiltration and inflow out of the Town of Bel Air; design and installation of the 4th pump to the pump station at Bush Creek; design and construction of a parallel for Bynum Run and Lower Bynum Run; and a study to design and construct stream protection projects where the streams are impacting or threatening to impact the Division's utilities.

## DEDICATED CAPITAL FUNDING

Harford County has three revenue streams that are dedicated to funding school capacity and modernization projects and/or the debt service incurred for them, park and recreation facilities, water and sewer debt service and the preservation of agricultural farm land. The following pages provide an explanation of their origin, the taxes, and the details of how each has been appropriated for FY 09.

### RECORDATION TAX

The Annotated Code of Maryland, 1957, as amended, Article 81 Section 277 provides counties with the authority to establish a recordation tax "upon every instrument of writing conveying title to real or personal property, offered for record and recorded in this State with the clerks of the circuit courts of the respective counties, . . . The term 'instruments of writing' shall include deeds, mortgages, chattel mortgages, bills of sale, leases, deeds of trust, contracts and agreements, . . ."

The Harford County Council established a Recordation Tax, via Resolution No. 10-79, effective July 1, 1979, on instruments recorded among the Land Records of Harford County which convey title to real property and on instruments securing a debt.

The Annotated Code of Maryland Section 12-113 requires the proceeds from Harford County's Recordation Tax be:

- I deposited in a special capital improvement fund for:
  - o payment of the principal and interest on school construction debt
  - o major improvements and capital improvements to existing school facilities
  - o new school construction
  - o portable classrooms
- II deposited in a fund for land and recreation open spaces:
  - o to purchase park lands and develop park and recreation facilities as separate units or as a part of a public school facility
  - o to pay loans made for those purchases
  - o to match any funds provided for those purchases

Then in 1982, the County via Resolution No. 21-82 increased the Recordation Tax rate and dedicated a portion of the proceeds to pay the County Water & Sewer Systems' debt service.

Recordation tax rate is \$6.60 per \$1,000 of the transaction value and is divided as follows:

Public School Debt Service and / or Construction	\$4.40	67.0%
Program Open Space or Parks and Recreation Capital Projects	1.10	16.5%
Water and Sewer Debt Service	1.10	16.5%
	\$6.60	100.0%

<b>DEDICATED CAPITAL FUNDING</b>
----------------------------------

For FY 09 Recordation Tax revenues are appropriated as follows:

**Harford County's FY 09 Operating Budget** **\$12,927,776**

**Board of Education Debt Service** **\$10,900,598**

Principal Payments	\$5,536,754	
Interest Payments	5,363,844	
	<u>\$10,900,598</u>	

**Water & Sewer Debt Service** **\$2,027,178**

Recordation Tax receipts are combined with system charges, miscellaneous revenues and investment income to cover principal and interest payments plus service costs on \$215,042,507 in Water & Sewer Bonds and Loans.

**Harford County's FY 09 Capital Budget** **\$2,027,178**

**Parks & Recreation Projects** **\$2,027,178**

Athletic Field Improvements	1,100,000	Park Land Acquisition	100,000
Bleacher Renovations	30,000	Playground Equipment	100,000
Churchville Complex Development	14,678	Regional Field Sports Complex	130,000
Edgewood Recreation Park	250,000	Swan Creek Channel Dredging	10,000
Friends Pond Rehabilitation	100,000	Swan Harbor Farm Improvements	8,000
Joppatowne Area Dredging	10,000	Tennis Multipurpose Courts	60,000
Mariner Point Park Renovations	12,000	Vale Road Elementary Facilities	100,000
		Willoughby Beach Launching Ramp	2,500

**Total Recordation Tax revenues appropriated for FY 09** **\$14,954,954**

<b>DEDICATED CAPITAL FUNDING</b>
----------------------------------

Recordation Tax revenues for the last five completed fiscal years have been:

Fiscal Year	Board of Education	Parks & Recreation	Water and Sewer	Total
2003	\$8,572,780	\$2,142,874	\$2,142,874	\$12,858,528
2004	\$10,900,015	\$2,724,595	\$2,724,595	\$16,349,205
2005	\$13,616,853	\$3,403,703	\$3,403,703	\$20,424,259
2006	\$15,775,947	\$3,943,394	\$3,943,394	\$23,662,735
2007	\$12,856,574	\$3,213,661	\$3,213,661	\$19,283,896

The last several fiscal years have seen an increase in revenue as a result of the lower mortgage interest rates leading to increased home sales and refinancing of existing mortgages. The slow down in home sales and building industries is reflected in the decline in recordation tax collections for Fiscal Year 2007 and has continued for Fiscal Year 2008 and is projected to continue for Fiscal Year 2009.

**TRANSFER TAX**

Harford County's Transfer Tax was instituted in response to a recommendation from the 1991 Blue Ribbon Committee on School Construction.

The Maryland General Assembly enacted House Bill No. 1481, effective July 1, 1992, authorizing the Harford County Council to impose a Transfer Tax. Subsequently, the County Council enacted Bill No. 93-3 to add new Article IV, Transfer Tax to Chapter 123, Finance and Taxation, of the Harford County Code which imposes a 1% Transfer Tax on any instruments of writing that convey title to, or a leasehold interest in, real property, effective July 1, 1993.

The Transfer Tax rate is 1% of the consideration payable and the proceeds are to be distributed as follows:

Agricultural Land Preservation Program	50.0%
Public School Construction Program	50.0%
	100.0%

<b>DEDICATED CAPITAL FUNDING</b>
----------------------------------

For FY 09 Transfer Tax revenues are appropriated as follows:

<b><u>Harford County's FY 09 Operating Budget</u></b>	<b>\$12,898,586</b>
---	---------------------

**Agricultural Preservation Fund**

**Revenues**

Transfer Tax revenues are combined with other operating revenues to provide the necessary funding for the purchase of additional development rights.

Transfer Tax	\$5,622,718
Investment Income	50,000
Fund Balance Appropriated	578,150
Miscellaneous	1,025,000

<b>Total Agricultural Land Preservation - County Funds Revenue</b>	<b>\$7,275,868</b>
--	--------------------

**Expenses**

These combined funds are then allocated to:

<u>Planning &amp; Zoning</u>	\$2,286,208
------------------------------	-------------

- o personnel services \$77,525
- o to purchase land easements for agricultural preservation \$1,708,683
- o matching funds for easement purchases made in Harford County by the State \$500,000

<u>Debt Service</u>	\$4,989,660
---------------------	-------------

- o Principal payments on Installment Agreement to purchase land easements \$1,800,000
- o Interest payments on Installment Agreement to purchase land easements \$3,100,000
- o Service costs on debt \$89,660

<b>Total Agricultural Land Preservation - County Funds Expenses</b>	<b>\$7,275,868</b>
---	--------------------

<b>Board of Education Debt Service</b>	<b>\$5,622,718</b>
--	--------------------

Principal Payments	2,372,894
Interest Payments	3,249,824
	<b>\$5,622,718</b>

<b>DEDICATED CAPITAL FUNDING</b>
----------------------------------

**Harford County's Fiscal Year 2009 Capital Budget:** **\$1,500,000**

**Board of Education Capital Projects** **\$1,500,000**

Bel Air High School Replacement	\$1,441,830
Relocatable Classrooms	<u>58,170</u>
	<u><u>\$1,500,000</u></u>

**Total Transfer Tax revenues appropriated for Fiscal Year 2009:** **\$14,398,586**

Transfer Tax revenues for the last five completed fiscal years have been:

Fiscal Year	Public Schools	Agricultural Preservation	Total
2003	\$6,089,859	\$6,089,859	\$12,179,718
2004	\$7,336,302	\$7,336,302	\$14,672,604
2005	\$9,801,007	\$9,801,007	\$19,602,014
2006	\$11,305,113	\$11,305,116	\$22,610,229
2007	\$8,732,815	\$8,732,016	\$17,464,831

The last several fiscal years have seen an increase in revenue as a result of the lower mortgage interest rates leading to increased home sales and refinancing of existing mortgages. The slow down in home sales and building industries is reflected in the decline in recordation tax collections for Fiscal Year 2007 and has continued for Fiscal Year 2008 and is projected to continue for Fiscal Year 2009.

## DEDICATED CAPITAL FUNDING

### PUBLIC SCHOOL DEVELOPMENT IMPACT FEE

The Maryland General Assembly adopted House Bill 965 (Article 24, Subtitle 10A, Harford County School Construction Financing, Section 9-10A-01) in 2004. The bill states, "the County Council of Harford County, by ordinance, may fix, impose, and provide for the collection of a development impact fee not to exceed \$10,000 for new construction or development." The revenue from the development impact fee may only be used for:

- (1) School site acquisition;
- (2) School construction;
- (3) School renovation;
- (4) School debt reduction; or
- (5) School capital expenses."

On June 10, 2005, The County Council of Harford County, Maryland enacted, as amended, Bill No. 05-21, that added Article VI, Public School Development Impact Fee, to Chapter 123, Finance and Taxation, of the Harford County Code. This legislation assures that new development contributes its fair share towards the costs of public schools reasonably necessitated by such new development, and to ensure that new development is reasonably benefited by the construction of new public schools built in whole or in part with the proceeds of development impact fees.

The development impact fee was phased in over three fiscal years and assessed per dwelling unit at the following rate:

Type of Residential Development	Fiscal Year		
	2006	2007	2008 and after
Single Family Detached	\$6,000	\$7,442	\$8,269
Townhouse / Duplex	4,200	5,148	5,720
All Other Residential (including Mobile Homes)	1,200	1,473	1,637

There are exemptions made for housing for the elderly and Continuing Care Retirement Communities.

Impact Fee revenues for the last two completed fiscal years have been:

Fiscal Year	Public Schools
2006	\$3,400,200
2007	4,700,428

<b>Dept. / Agency:</b> General - Treasury	<b>Project Number:</b> New
<b>Project Title:</b> Board of Education - Debt Service	<b>Project Location:</b>
<b>Project Description / Justification:</b> This project allows for the collection of Recordation Tax in the Capital Projects Fund in accordance with State law. Recordation taxes may be used for the payment of Debt Service on education capital projects or pay-as-you-go funding for education projects. In the past, the County has recorded the collection of Recordation Taxes in an Escrow account and then transferred the money to the General Fund to pay debt service. This project will provide a more informative means for audit presentation.

Project Title: Computer Equipment / Networks	Project Location:

**Project Description / Justification:**  
This is a multi-year project to purchase new and refresh computer equipment, Storage Area Network (SAN) and networks. Refresh program for servers has been implemented to ensure server modernization occurs to facilitate increasing needs of government capacity and maintain a useful, secure environment. The refresh program will replace end of life network components (routers / switches) due to failure or lack of bandwidth. The refresh program for computer hardware and software will maintain efficient workforce.

Dept. / Agency: General - Procurement	Project Number: A064104
Project Title: County Facilities and Systems Security Access	Project Location: Various
<b>Project Description / Justification:</b> This will allow us to expand on the original fuel dispensing system upgrade by ensuring all facilities along with the fuel dispensing system are appropriately secured. It is necessary to create a project that will integrate all areas of the County from building entrances, to entrance gates, to fuel pumps into one package using one access (I.D.) card. This will not only allow entrance of only authorized personnel, but will record and maintain an activity log. This project title and scope of project changed from Fuel Dispensing System Upgrade to include total system security upgrade.

<b>Project Description / Justification:</b> FY 09 funds are proposed to secure an Information Technology Review and Assessment. All County's technology organizations, infrastructure, applications, operations and governance will be assessed. An action plan with specific short and long term initiatives will be developed to align our IT services with our business strategy. The study will identify applications that should be retired, those that require further investment and upgrades, and any new systems that would benefit County-wide operations. Outyear funding is planned for such acquisitions.

Dept. / Agency: General - Administration	Project Number: A084103
Project Title: Harford County Southern Resource Annex	Project Location: Edgewood along Route 40

**Project Description / Justification:**  
This project will plan, design and construct several governmental type structures on a parcel of County property along Route 40 in the Edgewood community. One of the buildings will be the Southern Precinct building for the Sheriff's office. Another building will house functions of the Health Department. The site lends itself to additional uses which will be identified in the future during the master planning process.

Dept. / Agency: General - Administration	Project Number: A994107
Project Title: Milestone Projects	Project Location: Countywide
Project Description / Justification: There is a need to develop a single countywide network, integrating the different computer platforms for supporting all government agencies. Dark fiber optics MAN (Metropolitan Area Network) services will expand into our development envelope to support Sheriff's remote offices, schools, fire houses, industrial areas, county buildings, Town of Aberdeen, and the city of Havre de Grace. The expansion of this fiber project must expand into the rural area of our County. This project supports the business disaster recovery plan.

Dept. / Agency: DPW - Water Resources	Project Number: A994108
Project Title: Maintenance / Repair of Dams	Project Location: Various
<b>Project Description / Justification:</b> This project provides for the annual maintenance of dams which are the responsibility of Harford County, including, but not limited to, dams located at Deer Creek, Lake Serene, and Oaks of Harford. In addition, the project will provide the funding for repairs to private stormwater management facilities which present an immediate danger to the public or environmental health, or are a safety hazard because of an unsafe condition or improper maintenance. The costs of which would be assessed against the owner(s). Maintenance of new stormwater retrofit projects and repairs to stream restoration projects are also included.  This project is consistent with the Natural Resources Element Plan.

Dept. / Agency: DPW - Water Resources	Project Number: A014110
Project Title: Stream Gage Stations	Project Location: Various
<b>Project Description / Justification:</b> This project provides for the installation and operation of new USGS stream gage stations. The gage stations collect continuous stream flow data that can be used by County and private engineers to develop designs for stream restoration or hydraulic models for flood studies. Prior to this project four gages were operational in Harford County mostly in rural areas. This project has restarted the Bynum Run gage, installed new gages on Plumtree Run, James Run, and Swan Creek and initiated water quality monitoring at Plumtree Run and Bynum Run. An additional gage is proposed for Little Gunpowder Falls. Operational costs can be shared with USGS as funds are available.  This project is consistent with the Natural Resources Element Plan.

<b>Dept. / Agency:</b> DPW - Water Resources	<b>Project Number:</b> A064103
<b>Project Title:</b> Watershed Restoration / Improvements	<b>Project Location:</b> Various
<b>Project Description / Justification:</b> Watershed restoration / improvement projects are designed and constructed to reduce pollutant loading and improve water quality of the streams and rivers in Harford County. The types of projects include new stormwater management facilities, stormwater retrofits, stream channel restoration and stabilization. Projects fulfill a requirement of the County's National Pollutant Discharge Elimination System (NPDES) Permit issued by Maryland Department of the Environment. Projects could qualify for grants up to 75%. This project will be used to develop conceptual designs for larger projects and design and construction for smaller projects.

<b>Dept. / Agency:</b> DPW - Water Resources	<b>Project Number:</b> New
<b>Project Title:</b> Watershed Stream Assessment Studies	<b>Project Location:</b> Various
<b>Project Description / Justification:</b> Watershed assessments are required by Harford County's National Pollutant Discharge Elimination System (NPDES) permit issued by the Maryland Department of the Environment. The assessments identify potential watershed improvement projects. Watershed assessments are management tools used to develop programs to address water quality issues included, but not limited to, the identification of potential water quality improvement projects, the development of water quality models, the creation of watershed management plans and the estimation of pollutant load reductions.

**CAPITAL PROJECTS  
FOR  
THE SHERIFF'S OFFICE**

Dept. / Agency: Sheriff's Office	Project Number: E054106
Project Title: Computer Equipment and Networks	Project Location: Bel Air, MD
Project Description / Justification: For the purpose of replacing computer hardware through natural attrition (as identified by the equipment life cycle), and upgrading the appropriate software. This will also cover the upgrade of the network infrastructure to improve bandwidth issues and enable municipalities to share our Records Management System. This funding will purchase equipment to provide disaster recovery for the Sheriff's Office networks.

Dept. / Agency: Sheriff's Office	Project Number: E044106
Project Title: Detention Center Expansion	Project Location: Bel Air, MD
<b>Project Description / Justification:</b> The Harford County Detention Center is planning for the programming, design, and construction of a 288 bed expansion for medium security level male and female inmates. The gross square footage for the new addition is 86,455. In conjunction with information supplied by State and County capital project personnel, the programming, design, and construction cost is estimated at approximately \$29,358,000. The State contributed 50% of design funding in FY 07, partial construction funding in FY 08, and the State balance of construction funding and equipment costs were requested for FY 09. Due to the State's delay the County would be required to forward fund construction, inspection, and equipment costs.

*Harford County Emergency Operations Center*

**CAPITAL PROJECTS  
FOR  
EMERGENCY OPERATIONS**

Dept. / Agency: Emergency Operations	Project Number: E074110
Project Title: Expansion / Renovation of the Emergency Operations Center	Project Location: Forest Hill, MD
<b>Project Description / Justification:</b> In 2007 Harford County Government retained the services of Morris & Ritchie Associates, Inc. to provide a feasibility study to help the County determine what is needed and what is feasible in terms of expansion and upgrade requirements to existing facilities within the Emergency Operations Center (EOC). In the final report provided by Morris & Ritchie Associates, Inc., probable cost estimates were provided revealing a shortfall in the prior capital budget request. Additional funds are being requested so that the project can move forward as planned. As population growth increases due to BRAC, public safety needs will also increase, this expansion will meet that need.

Project Title: 911 State Fee Fund	Project Location: Forest Hill, MD
<b>Project Description / Justification:</b> This project provides appropriation authority to accept State funds derived from a twenty-five cent charge on all 911 calls. This qualifies the County to be reimbursed for certain equipment and furnishings. This project is BRAC related, as the County's population grows there will be more funds derived from calls for service.

Dept. / Agency: Emergency Operations	Project Number: E074109
Project Title: Public Safety Infrastructure Network	Project Location: Forest Hill, MD

**Project Description / Justification:**  
 To replace the current Fire Network which is obsolete and will not work with the new Computer Aided Dispatch system. The old system is analog, the new system is digital. Funding will also be used to connect critical radio towers via fiber cable, and provide telecommunications infrastructure to back up the Public Safety Answering Point (PSAP), and the Emergency Operations Center (EOC). Requesting additional funding in FY 09: \$20,000 Network storage at the EOC and backup site; \$12,000 replacement servers; \$26,000 for computers at firehouses; \$150,000 for wireless deployment at the EOC/ backup EOC; and a backup Public Safety Answering Point (PSAP).  
 This project is BRAC related, a fully deployed, implemented, and up to date Public Safety Network will allow all public safety agencies and employees to interoperate, obtain up to date information on emergencies, and perform their duties as needed. The need for these systems will increase as population gets larger.

Dept. / Agency: Emergency Operations	Project Number: New
Project Title: 700 MHz Wireless Radio System Equipment	Project Location: Forest Hill, MD

**Project Description / Justification:**  
The FCC will be releasing frequencies (channels) in the 700 MHz range. Harford County requested 15 channels in the 800MHz range and only received nine. Emergency Operations requires additional channels for immediate use in public safety and for future use with the County Government, DPW, Water & Sewer, and Board of the Education. This expansion outside of public safety will allow interoperability between all County Government entities. The funding requested is for engineering services and equipment at a pilot site to test the integration of 700 MHz frequencies with our existing 800 MHz system.  
This project is BRAC related, population growth due to BRAC will cause increased call volumes. More radio channels are required to handle the increased call volume.

Dept. / Agency: Harford Community College	Project Number: C064121
Project Title: Hays Heighe Renovations	Project Location: Harford Community College Campus
<b>Project Description / Justification:</b> This structure, built in 1808, is listed in the National Register of Historic Places and currently houses offices for the Center for the Visual and Performing Arts. Major work is required to preserve the foundation and to upgrade the mechanical systems. Modifications to provide long term structural integrity are also required to continue the building's use as an instructional laboratory and museum space for the building preservation and restoration program. Careful consideration will be given to the delicate balance of historic preservation and modern expectations. Environmental sustainability guidelines will be applied where feasible.

<b>Dept. / Agency:</b> Harford Community College	<b>Project Number:</b> New
<b>Project Title:</b> Roof Replacements	<b>Project Location:</b> Harford Community College Campus
<b>Project Description / Justification:</b> The roof systems of the Student Center, Chesapeake Center, and Joppa Hall are all flat built-up modified systems which were not included in previous building renovations. These roofs have undergone partial replacement or resaturation processes to extend their useful life. Given the lifespan of the roofs, this requires planning for a replacement strategy to ensure all roofing systems are kept safe and structurally sound. The projected date for improvements is FY 2009.

<b>Dept. / Agency:</b> Harford Community College	<b>Project Number:</b> C084108
<b>Project Title:</b> Susquehanna Center Additions / Renovations	<b>Project Location:</b> Harford Community College Campus
<b>Project Description / Justification:</b> This project involves the 52,445 gsf renovation and 27,000 gsf expansion of the Susquehanna Center, which serves physical education, athletics, and health programs. The facility's improvements will include: expanded / modernized classrooms, labs and activity rooms; additional space for faculty and staff; modern infrastructure to replace mechanical, electrical and plumbing systems originally installed in 1968. The addition to Susquehanna will house a smaller therapeutic pool, new labs and activity rooms, multi-purpose courts, and a sports practice area. Outdoor improvements for access to fields are included.

Dept. / Agency: Harford County Public Library	Project Number: L084110
Project Title: Aberdeen HVAC Replacement	Project Location: Aberdeen, MD

**Project Description / Justification:**  
 The HVAC equipment at Aberdeen was broken most of the summer. County Facilities and Operations personnel recommended that it be replaced. Performing maintenance on the system is unsafe. The design of the system requires that it be operational to service, resulting in an extremely unsafe condition.

Dept. / Agency: Harford County Public Library	Project Number: L074115
Project Title: Churchville Recreation Complex	Project Location: Churchville, MD

**Project Description / Justification:**  
This project proposes joint development of the Churchville Recreation Complex. This will be a partnership similar to the Norrisville project. Parks and Recreation and Harford County Public Library will build and share a 20,000 to 25,000 square foot building. The Churchville Library will house Harford County Public Library's first Science Learning Center. This Center will provide science related materials for use by third graders thru middle school students. It's goal will be to nurture the scientific interest of young children. This Library will be constructed as a green building. The goal is to receive a silver LEED certification. The design will be completed in FY 08. Construction will begin in FY 09. Equipment and furniture would be \$220,000 and materials would be \$800,000.

Dept. / Agency: Harford County Public Library	Project Number: New
Project Title: Facility Renovation Budget	Project Location: Various
Project Description / Justification: Presently there are 11 branches that are in different stages of needing refurbishment. Some are brand new, while others have not been touched in years. We are requesting that a project be funded each year with \$350,000. This would allow us to automatically renovate a branch with new carpet, painting, lighting, furniture, or possibly a new circulation desk. Harford County Public Libraries has over 1,600,000 visitors per year.

Dept. / Agency: Harford County Public Library	Project Number: L074117
Project Title: Whiteford Library Expansion	Project Location: Whiteford, MD
Project Description / Justification: Funding is requested for the construction of the expansion to the existing Whiteford branch. The expansion should include the building and the parking lot. Future funding consists of construction, additional shelving, new furniture, and additional materials. The total square footage will grow to approximately 14,000 square feet. Whiteford will need \$548,000 for additional materials and \$150,400 for furniture and shelving.

Dept. / Agency: Harford County Public Library	Project Number: New
Project Title: Aberdeen Expansion	Project Location: Aberdeen, MD
<b>Project Description / Justification:</b> Harford County Public Libraries would like to add 5,000 square feet addition to the Aberdeen Library. This addition would expand the staff work area, the yard area and would add a drive-thru window. These funds would also provide additional parking. This is one of the heaviest used branches located in a priority funding area of Harford County. This branch alone services 12% of our walk in customers. This budget includes \$389,000 for additional materials and \$134,000 for furniture and shelving. This project is BRAC related, the Aberdeen branch is less than one mile from the main gate to Aberdeen Proving Ground. The Aberdeen library will be the only library resource for base personnel with the recent closings of the base libraries. The library is presently overcrowded and parking is insufficient.

Dept. / Agency: Harford County Public Library	Project Number: New
Project Title: Havre de Grace Expansion	Project Location: Havre de Grace, MD
Project Description / Justification: The Havre de Grace branch is one of our most heavily used branches in relation to its size. It has more foot traffic per square foot than any other branch. The present building is only 8,420 square feet, but it has the foot traffic equal to branches twice its size. Our estimated increase in square footage is based on this relationship. The Havre de Grace branch was originally designed to be expanded at a later date. With the impact of BRAC and the close proximity to APG this branch will only become more crowded. This estimate is calculated on expansion to 14,000 square feet from its current 8,420 square feet. Included in this budget is \$420,000 for materials and \$300,000 for furniture and shelving.

Dept. / Agency: Board of Education	Project Number: B994119
Project Title: Bel Air High School Replacement	Project Location: Various
Project Description / Justification: This building was constructed in 1950 with additions in 1957, 1968, and 1983. Based on a physical condition study performed in 1997 for the four oldest high schools. Bel Air High School was ranked as the first priority requiring facility upgrades. A scope study performed in FY 03, and a Feasibility Study completed in 2005 which confirmed the intent to replace the facility rather than modernize it. The project capacity has been sized at 1,668 students, and design will be based on the Aberdeen prototype. This project budget does not include \$2,500,000 for the expansion of the Auditorium. This funding is identified as a separate project.

Dept. / Agency: Board of Education	Project Number: B004119
Project Title: Deerfield ES Modernization / Addition	Project Location: Edgewood
Project Description / Justification: This facility was originally constructed in 1963, with additions in 1968, 1989, and 1997. The capacity expansion from 555 to 690 is recommended and the school organization is based on 27 regular classrooms, 5 kindergarten rooms, and 2 pre-kindergarten rooms. The project scope is based on a full replacement. The school is inside the development envelope and priority funding area. One adjacent school, Edgewood Elementary School is currently housing the pre-kindergarten classes from Deerfield. This school also houses numerous special programs for its population, and the State rated capacity does not reflect its functional capacity. This was an approved replacement school in lieu of modernization, which was approved by the Board of Education and ratified by the County Council for FY 06 capital funding.

Dept. / Agency: Board of Education	Project Number: B074119
Project Title: Edgewood High School Replacement	Project Location: Edgewood
<b>Project Description / Justification:</b> This building consists of a 193,660 square foot high school constructed in 1954, with additions in 1958, 1967, 1969, and 1975. Six science rooms were renovated in 1996. The project is conceived as a replacement school on site, increasing the capacity from 1,380 to 1,600 in anticipation of BRAC development. Based on the age of this building, the large number of additions, and the poor condition and arrangement of the structure, this building will be demolished and replaced with design concept based on a modified Aberdeen High School prototype. A request to waive the feasibility study has been submitted on December 22, 2006 and approval was granted by the IAC on July 12, 2007. This was an approved replacement school in lieu of modernization, which was approved by the Board of Education and ratified by the County Council for FY 06 Capital funding.

Project Title: Joppatowne Elementary School Modernization / Addition	Project Location: Joppa

**Project Description / Justification:**  
This facility was originally constructed in 1965, with additions in 1968 and 1995. The capacity expansion from 547 to 653 was recommended and approved by the State in FY 08. The school organization is based on 21 regular classrooms, 5 full day kindergarten rooms, 2 pre-kindergarten rooms, and 1 special education rooms for children with emotional and behavioral disabilities. The project scope is based on a full modernization. Community space of 3,000 square feet in the form of an enlarged gym, Parks and Rec storage, and volunteer work room is requested. This was an approved modernization project that was approved by the Board of Education and ratified by the County Council for FY 06 capital funding. This is the final year of funding.

Dept. / Agency: Board of Education	Project Number: New
Project Title: Schuck's Road Elementary School New School	Project Location: Churchville, MD

**Project Description / Justification:**  
The schools to the north and east of Bel Air are experiencing capacity problems due to the intensive development along Rt. 543 / Fountain Green corridor. There are several other schools identified that do not have site conditions which allow for addition, this project viewed as a comprehensive solution to numerous enrollment impacts. The site was recently purchased by Harford County for the purpose of building an elementary school. This is not within the development envelope and is not in the priority funding area. This was approved in FY 08 contingent upon Harford County Government being able to purchase the land to relieve capacity issues in the Bel Air area. The land was purchased in July 2007 by Harford County Government. Harford County Public Schools will proceed with the site investigation once all of the residential properties along Schuck's Road is purchased for this site.

Dept. / Agency: Board of Education	Project Number: B064125
Project Title: Vale Road Elementary	Project Location: Bel Air

**Project Description / Justification:**  
This project is based on 22 regular classrooms, 4 kindergarten rooms and one pre-kindergarten space. Its need is based exclusively on existing overcapacity at schools to the north and east of Bel Air from past development growth and the implementation of full day kindergarten. Site approval is in process. Design funding was provided in FY 07 budget and the architectural/engineering team has been selected. Draft Educational Specifications have been prepared and will be reviewed in October by the planning committee. This project will be designed as a prototype building to be reused in a variety of configurations, anticipating the future needs based on BRAC. It will be modeled as a sustainable building without seeking LEED certification and to achieve maximum energy savings. This was an approved new school to relieve Bel Air capacity issues, which was approved by the Board of Education and ratified by the County Council for FY 07 capital funding.

Dept. / Agency: Board of Education	Project Number: B074122
Project Title: John Archer at Bel Air Middle School	Project Location: Bel Air

**Project Description / Justification:**  
This facility was originally constructed in 1971 as a self contained special education facility for Grades PK-12. An addition was added in 1981. The facility currently houses approximately 160 medically fragile and severely disabled students. As the majority of the students once attending this school have been mainstreamed, the remaining space has been used for providing County-wide special education services, including diagnostic, prescriptive and remedial services. To meet Federal and State inclusion laws and bring the campus closer to the central part of the County where medical services are readily available. This addition is proposed to attach to the Bel Air Middle School facility, which is currently located on the same site where the Homestead / Wakefield Elementary School and the Bel Air High School facilities are located. This project is in the process of preparing an educational specification that incorporates inclusion between regular educational facilities within the campus. Project title was previously John Archer School.

Dept. / Agency: Board of Education	Project Number: New
Project Title: William Paca / Old Post Elementary School	Project Location: Abingdon, MD
Project Description / Justification: This elementary school is due for a full modernization of a two buildings with 112,417 square feet. The need arises due to the age of the infrastructure and programmatic spatial requirements. William Paca Elementary School was constructed in 1964 with a media center addition in 1997. Old Post Elementary School was constructed in 1956, 1957, and 1968. All of these sections were renovated in 1975 with a Media Center additional in 1997. A full scope study will be performed sometime during the 2008 fiscal year.

Dept. / Agency: Board of Education	Project Number: B074127
Project Title: Youth's Benefit Elementary School	Project Location: Fallston, MD
Project Description / Justification: This facility is a two school campus, with the original buildings constructed in 1953, and 1973, respectively. A scope study was completed in spring 2007 after the Board of Education approved this project in FY 07. This showed from a site logistic, instructional perspective, age of infrastructure and operational management during construction, that the two existing buildings should be demolished in phases to allow for one new replacement school. A state feasibility waiver request is currently under review with MSDE and the IAC.

*Churchville Recreation Complex*

Dept. / Agency: Parks and Recreation	Project Number: P084117
Project Title: Athletic Field Improvements	Project Location: Various
<b>Project Description / Justification:</b> This project proposes major improvements to athletic fields at various locations throughout the County by the installation of artificial turf. Emphasis will be focused at high school stadium fields which would then be available for a broad range of athletic activities by both school teams and recreation councils. Major County parks may also be sites for artificial turf fields. This project supports the goals and objectives of the 2005 Land preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

<b>Dept. / Agency:</b> Parks and Recreation	<b>Project Number:</b> P034120
<b>Project Title:</b> Backstop Renovations	<b>Project Location:</b> Various
<b>Project Description / Justification:</b> <p>Many of the 197 softball / baseball diamonds in Harford County were installed more than fifteen years ago, and are showing significant signs of wear and tear on the fencing, kick plates and players benches. This project continues a long-term effort to renovate these facilities. The priorities will be based on a comprehensive survey of conditions and a group of backstops will be improved periodically. In addition to addressing safety concerns, renovated backstops improve the appearance of the park facilities and encourage community pride. County funding may be supplemented by recreation councils.</p> <p>This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.</p>

Dept. / Agency: Parks and Recreation	Project Number: P054115
Project Title: Churchville Complex Development	Project Location: Churchville Recreation Complex
<b>Project Description / Justification:</b> This project proposes the further development of the Churchville Recreation Complex. The construction of a library / recreation building similar to the Norrisville facility is planned as a joint project with Harford County Public Library for design in FY 2007 - 2008 and construction in FY 09. Future projects include construction of a nature trail and additional active recreation facilities. The development of a joint use facility will meet community needs for a library, community meeting space and additional indoor recreation space in a very cost-effective manner. Funding is shown in this project and in the Harford County Public Library Churchville Recreation Complex project. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Darlington Park Development	Project Location: Darlington Park
<b>Project Description / Justification:</b> This project proposes the development of facilities at Darlington Park, a recently acquired neighborhood park at the gateway to Darlington. FY 09 funds will be used for design of 2 soccer / lacrosse fields with parking stormwater management and landscaping. Construction will occur in FY 2010. Future projects will include a restroom / storage building. This project is BRAC related, additional residential development is anticipated in Darlington due to the increased job opportunities from BRAC. Population growth will generate demand for additional recreation facilities. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P074131
Project Title: Edgewood Recreation Park	Project Location: Edgewood, MD

**Project Description / Justification:**  
This project proposes the development of the western area of the park. The first phase will include a new access onto Trimble Road serving a second football field and a large parking lot. Lighting is proposed for FY 2011 and a restroom concession building in FY 2012. Future development will focus on passive amenities in the wooded areas. The additional field and parking is critical for the football program. The passive amenities, such as trails and picnic pavilions, will benefit the community and contribute to revitalization of the area.  
This project is BRAC related, additional residential development is anticipated in the Edgewood community due to the increased job opportunities from BRAC. Population growth will generate demand for additional recreation facilities. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Enlarged Gymnasiums & Activity Rooms	Project Location: Various

**Project Description / Justification:**  
This project proposes the construction of enlarged gymnasiums, activity rooms, and recreation storage at Harford County Public School sites. The activity rooms will be approximately 2,000 - 3,000 square feet and will be available for recreation programs all day. The construction of Vale Road Elementary School and a new gymnasium at Prospect Mill Elementary School in FY 09 will include bleachers and Parks & Recreation storage. Modernization of Deerfield Elementary School in FY 10 will also include construction of an enlarged gym. Current information indicates that one to two elementary schools will be modernized each year along with two middle schools in the ten year planning period. The inclusion of additional indoor recreation space in schools is a cost effective way to add needed facilities for Recreation Council use. Indoor space is critical for winter programming. Secondary schools utilize their large gymnasiums extensively for school programs, leaving minimal opportunity for recreation activities.

Dept. / Agency: Parks and Recreation	Project Number: P054118
Project Title: Friends Pond Rehabilitation	Project Location: Friends Park
<b>Project Description / Justification:</b> This project proposes the rehabilitation of Friends Pond in Forest Hill. Friends Park is a community park which includes a 1.1 acre pond owned by the Department of Natural Resources. The Maryland Department of the Environment has identified necessary repairs to the riser structure and the dam. These repairs will ensure the continued integrity of the pond and its retention as a community amenity. Costs will be shared between the County and the Department of Natural Resources. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P054119
Project Title: Heavenly Waters Park	Project Location: Bel Air, MD
<b>Project Description / Justification:</b> This project proposes the development of Heavenly Waters Park. Heavenly Waters Park is the home of the Equestrian Center, Tollgate Fields and the Parks and Recreation Headquarters. The Equestrian Center is used for the Farm Fair and by many different organizations for fundraisers and other events. A joint project of the Department of Parks and Recreation and the Office on Aging will construct a multi-use building with a woodshop for senior citizens and others, restrooms for trail users with showers for the Farm Fair participants. Funds are also allocated in this project for rehabilitation of the existing pond, including replacement to the riser and repairs to the embankment. Additional funds in FY 2009 will be used for completion of the woodshop project. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P074137
Project Title: Magnolia Complex Development	Project Location: Magnolia Elementary / Middle Schools

**Project Description / Justification:**  
This project proposes the development of additional athletic fields on vacant land adjacent to Magnolia Elementary and Middle Schools. Soccer / lacrosse fields and baseball diamonds will be included in this facility. The initial phase will include an expansion of the parking lot at Magnolia Middle school, construction of two soccer fields and the required stormwater management facility. The second phase will include access to Trimble Road, two baseball / softball diamonds and an additional soccer / lacrosse field and associate parking. A restroom / storage building will be constructed in future years. FY 2007 funds are being used for design with construction in FY 2009. Additional residential development is anticipated in this area of the County due to the increased job opportunities from BRAC. Population growth will generate demand for additional recreation facilities.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Nuttall Avenue Park Development	Project Location: Edgewood, MD
Project Description / Justification: This project proposes the development of passive community amenities, such as trails, a picnic pavilion and amphitheatre on a vacant site. Engineering, including site investigation of remnants of former structures, will be initiated in FY 2009. Site restoration and construction of new facilities will begin in FY 2010. Development of an attractive park site and community attractions will contribute to revitalization of the area. Funding may include Community Parks and Playgrounds as well as local funds. Additional residential development is anticipated in the Edgewood community due to the increase job opportunities from BRAC. Population growth will generate demand for additional recreation facilities. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Project Title: Oakington Farm	Project Location: Oakington Farm
<b>Project Description / Justification:</b> This project proposes the development of the Millard and Eleanore Tydings Park. The large French barn on the property is an unusual structure and has potential for adaptive reuse in the future. A partnership with a therapeutic riding organization is proposed at this site. Future development will be at a level appropriate to the farm land which provides access. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P054122
Project Title: Park Land Acquisition	Project Location: Various

**Project Description / Justification:**  
This project proposes the acquisition of land to be used as active and / or passive park sites. This project is not site specific, thus allowing the purchase of land whenever and wherever it becomes available. Sites to be acquired will include areas of outstanding natural features, stream valley parks, as well as regional and community park sites. Particular attention will be given to preserving open space countywide in cooperation with State and Federal programs and to addressing the unmet needs of the high growth areas of the County. Funds for acquisition may be supplemented by other County land acquisition capital projects or by Recreation Council funds. Additional residential development is anticipated in certain areas of the County as a result of increased job opportunities due to BRAC. Population growth will generate demand for additional recreation facilities. This project supports the goals & objectives of the 2005 Land Preservation, Parks & Recreation Plan & its Capital Improvements Program.

Dept. / Agency: Parks and Recreation	Project Number: P034125
Project Title: Playground Equipment	Project Location: Various
Project Description / Justification: This project proposes the purchase and installation of playground equipment at various park areas and schools throughout the County. The replacement of old, deteriorated and unsafe equipment and the need to make existing playgrounds accessible to individuals with disabilities will continue to be a priority. Partnerships with Harford County Public Schools, elementary school Parent-Teacher Associations, nonprofit foundations and other groups are encouraged as a means of meeting the extensive needs for playground improvements. Additional funding may be provided by the Community Parks and Playground Program of the Department of Natural Resources. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P044126
Project Title: Prospect Mill Park	Project Location: Hickory / Fountain Green Area
Project Description / Justification: Harford County has acquired a 29.9 acre parcel to serve the outdoor recreation needs of the Hickory / Fountain Green area. This project will include design and development of this site, including necessary parking and restroom facilities. Future projects may include a picnic pavilion and playground. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P984182
Project Title: Regional Field Sports Complex	Project Location: Cedar Lane Park

**Project Description / Justification:**  
This project proposes the construction of a regional field sports park. This facility will be developed by the Department of Parks and Recreation with facilities for the Emmorton community and for county-wide field sports programs. Phase I of the development of Cedar Lane Park will include engineering, a football field, and a baseball diamond for the Emmorton program, twelve soccer / lacrosse / hockey fields and associated parking and road improvements. FY 2008 funds will be used to complete the improvement to Cedar Lane and Maryland Route 136. Phase II will include a restroom / storage building. Once the facility goes online, subsequent projects may be funded through a partnership with the Cedar Lane Sports Foundation who will manage the operation of the complex in concert with the department. Small grants may be made to the Foundation in accordance with the M.O.U. for amenities such as additional synthetic turf fields, field lighting, field maintenance equipment, restrooms, team rooms, etc.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Swan Harbor Farm Improvements	Project Location: Havre de Grace, MD

**Project Description / Justification:**  
 This project proposes renovations and improvements at Swan Harbor Farm. FY 08 and FY 09 funds will be used for amenities in conjunction with the pier, such as lighting, landscaping, and shoreline stabilization, etc. A permanent event facility is proposed for engineering in FY 08 and construction in FY 10. Future projects include the construction of a recreational trail from the City limits of Havre de Grace through Swan Harbor Farm to the waterfront. This hiker / biker trail would connect Swan Harbor Farm to the historic amenities of Havre de Grace and link the park to the Lower Susquehanna Heritage Greenway. An outdoor amphitheatre for community events on the site is planned for FY 15 and FY 16. Additional parking will be constructed to support these uses. A variety of funding sources will be used for these projects, including bonds for the event facility, DNR Waterway Improvement Funds for the pier, POS funds and other State sources for the Lower Susquehanna Heritage Greenway.

Dept. / Agency: Parks and Recreation	Project Number: P074140
Project Title: Tennis Multipurpose Courts	Project Location: Various
Project Description / Justification: This project proposes the resurfacing and the reconstruction of tennis and multipurpose courts throughout the County. The resurfacing may include applying new color coating or applying a layer of stone dust with additional blacktop, then color coating depending on the condition of the courts. Many existing courts are 15 to 30 years old and need work to provide a safe playing surface and fencing. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P084127
Project Title: Vale Road Elementary Facilities	Project Location: Bel Air, MD

**Project Description / Justification:**  
A new elementary school will be constructed on Vale Road. Athletic facilities constructed at the school will be available for community recreation use. Storage facilities and other amenities will be needed in the future. Funds for additional improvements may be available from new developments in the area and Recreation Councils. Additional residential development is anticipated in the Bel Air area due to the increased job opportunities from BRAC. Population growth will generate demand for additional recreation facilities as well as schools. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Project Title: Benson Fields Development	Project Location: Benson, MD

**Project Description / Justification:**  
This project proposes the construction of active recreation facilities on the 41-acre parcel adjacent to Edgeley Grove Farm. This parcel is relatively level and well suited for baseball / softball diamonds as well as multipurpose fields and will provide facilities needed by the Fallston Recreation Council. Ancillary uses such as parking, restrooms, and picnic pavilions will be provided on the site. Design was initiated in FY 08 with construction planned for FY 09.  
This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan, and is included with the Edgeley Grove Farm Development in the Capital Recommendations of that Plan.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Blake's Venture Park	Project Location: Forest Hill, MD
<b>Project Description / Justification:</b> This project proposes the development of Phase II of Blake's Venture Park in Forest Hill. The initial phase of development included the trailhead for Phase II of the Ma and Pa Heritage Trail, two soccer fields and associated parking. The second phase will include active recreation facilities to serve the needs of the Forest Hill Recreation Council. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P044120
Project Title: Bush River Boat Launch Ramp	Project Location: Belcamp, MD

**Project Description / Justification:**  
This project proposes to develop a new boat launching ramp on the Bush River. The site will be easily accessible from Route 40 and will include the ramp and the parking for cars and boat trailers. Funds have been appropriated for engineering. A new site must be acquired for this project as no suitable public land is available. Following acquisition, construction of the ramp will be initiated. Funding will be shared between Harford County and the Department of Natural Resources, Waterway Improvement Program. The County's existing boat launching ramps are not adequate to serve current needs and the proposed conversion of private daily fee facilities to waterfront residential communities will reduce the current available ramps. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Churchville Center Renovations	Project Location: Churchville Recreation Complex
<b>Project Description / Justification:</b> The existing Churchville Recreation Center and associated outbuildings are more than fifteen years old and basic systems need renovation or upgrades. FY 10 funds will be used to replace the heating system, including a shelter protecting systems set outside the building. Future projects will be identified as needs occur. Maintenance and upgrading of existing facilities are critical to protecting the County's investment in this indoor recreation center. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P014126
Project Title: Eden Mill Park Rehabilitation	Project Location: Eden Mill Park

**Project Description / Justification:**  
This project continues renovations and improvements to Eden Mill, including replacing / restoring trash gates, repairing water vaults, stabilizing scales and other related work on the facilities. This project also includes repairs and improvements to the Nature Center and other facilities as needed. Funds have been used to provide heating and air conditioning for the Nature Center and evaluation of the dam structure and vault. Repairs to the dam will be programmed at the completion of the evaluation. Maintenance and upgrading of the existing facilities is critical to protecting the County's investment in this historic building and increased usability as a nature center and community attraction. Other State funding may be available from Waterway Improvements or Urban Forestry programs.  
This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvement Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P024126
Project Title: Edgeley Grove Farm	Project Location: Benson, MD
<b>Project Description / Justification:</b> This project proposes the construction of recreation facilities at Edgeley Grove Farm. The initial phase of development included two soccer fields, parking and the site for Annie's Playground, along with a climbing wall. The construction of restrooms and a hiker / biker trail will be completed in FY 08. Additional parking is planned for FY 2010 along with renovation of the existing farm pond and construction of a community amphitheatre. Future development of active recreation facilities, additional parking and additional restroom facilities are proposed in 2013 and 2015. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P064131
Project Title: Edgewood Recreation and Community Center	Project Location: Edgewater Village, Edgewood
<b>Project Description / Justification:</b> This project includes the construction of an 8,000 square foot gymnasium at the Edgewood Recreation and Community Center. This center includes Parks and Recreation Southern District Office and a daycare facility. The gymnasium will be used for Parks and Recreation and Office on Aging programming. Future site improvements will include a multipurpose field with in FY 10. This project is BRAC related, additional residential development is anticipated in the Edgewood community due to the increased job opportunities from BRAC. Population growth will generate demand for additional recreation facilities. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Emmorton Development	Project Location: Emmorton, MD

**Project Description / Justification:**  
The Emmorton area has been the core of the Development Envelope concept since 1977. Rapid residential and commercial growth has brought many new residents to the area. Land in this area is very scarce and costly. Acquisition of property will be done through the Park Land Acquisition Capital Project and may include sites on the fringe of the Development Envelope. This project proposes the development of newly acquired lands for additional outdoor recreation facilities.  
This project is BRAC related, additional residential development is anticipated as a result of the increased job opportunities from BRAC. Population growth will generate demand for creation of facilities in this area. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P074145
Project Title: Havre de Grace Field Development	Project Location: Havre de Grace
<b>Project Description / Justification:</b> This project proposes the development of the Lambros Property for recreation fields to be compatible with and compliment the future elementary school as well as meeting current recreation needs. FY 07 funds were used for design of three to four athletic fields to accommodate soccer, lacrosse or football along with an access road and parking. Construction would be initiated in FY 2008. A restroom / storage building is planned for FY 2011 with a pavilion and playground later. A second phase of field construction is planned for FY 2013. BRAC is expected to generate demand for additional housing units in this area of Harford County. Population growth will generate demand for additional recreation facilities as well as schools. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Northern Regional Park	Project Location: Northern Harford County

**Project Description / Justification:**  
This project proposes a large regional recreation facility to serve multiple recreation councils in the northern part of the County. The park site will be acquired under the Park Land Acquisition account. Development of the initial phase of the project will be designed in FY 2013 with construction in FY 2014. The second phase of development will include construction of an indoor facility with a gymnasium and multipurpose rooms. Partnerships will be encouraged so that a variety of community needs are addressed. This phase will begin design in FY 2015 and construction in FY 2018. Additional residential development is anticipated as a result of the increased job opportunities from BRAC. Population growth will generate demand for additional recreation facilities. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P034124
Project Title: Parking Lot Paving	Project Location: Various
Project Description / Justification: This project proposes the overlay and expansion of existing parking lots and entrance roads at County park sites. Many parking lots are more than 15 years old and require refurbishing for safe usage. Furthermore, heavy usage of existing facilities has generated demand for additional parking spaces. This project is to keep existing parking lots serviceable and to respond to community concerns about adequate off-street parking. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

<b>Dept. / Agency:</b> Parks and Recreation	<b>Project Number:</b> New
<b>Project Title:</b> Parks and Recreation Headquarters	<b>Project Location:</b> Bel Air, MD
<b>Project Description / Justification:</b> This project proposes the conversion of the Kelly House on the Liriodendron campus from residential use to an office for the Administrative Staff of the Department of Parks and Recreation. This facility will provide additional office and storage space for staff and records. Improvements will include the provision of ADA accessibility, electrical upgrades and computer and telephone cabling. Future projects will be identified as needs arise. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program.

Dept. / Agency: Parks and Recreation	Project Number: New
Project Title: Perryman Park Development	Project Location: Perryman Park
Project Description / Justification: This project proposes the construction of recreation facilities at the Perryman Park site. Both active and passive recreation facilities are proposed at this site, providing facilities for the community to enjoy the water views as well as meeting needs for the Belcamp Recreation Council. The initial phase of development will include passive recreation amenities to complement the trail constructed in conjunction with the Bush River DMP site. Additional residential development is anticipated as a result of the increased job opportunities from BRAC. Population growth will generate demand for additional recreation facilities. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

<b>Dept. / Agency:</b> Parks and Recreation	<b>Project Number:</b> P074138
<b>Project Title:</b> Robert Copenhaver Park Improvements	<b>Project Location:</b> Robert Copenhaver Park - Joppatowne
<b>Project Description / Justification:</b> This project proposes improvements at Robert Copenhaver Park, including replacement of the field lighting. The existing restroom facilities were built by the Joppatowne Lions Club approximately 30 years ago and are outdated and inadequate for current usage. FY 2007 funds were used for analysis of alternatives including renovation of the current building and installation of a prefabricated restroom structure. Construction will occur when public sewer becomes available. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation plan and its Capital Improvements Program Recommendations.

<b>Dept. / Agency:</b> Parks and Recreation	<b>Project Number:</b> New
<b>Project Title:</b> Schucks Road Elementary Facilities	<b>Project Location:</b> Churchville, MD
<b>Project Description / Justification:</b> A new elementary school is proposed for a site adjacent to the Schucks Road Sports Complex. Athletic facilities constructed at the school will be available for community recreation use. Storage facilities and other amenities will be needed for the future. Funds for the additional improvements may come from donations and Recreation Council projects. BRAC is expected to generate demand for additional housing units in this area of Harford County. Population growth will generate demand for additional recreation facilities as well as schools. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: <b>Parks and Recreation</b>	Project Number: <b>P064137</b>
Project Title: <b>Schucks Road Regional Complex</b>	Project Location: <b>Churchville, MD</b>

**Project Description / Justification:**  
This project proposes the development of a 71 acre site centrally located in Harford County. Three Recreation Councils (Hickory / Fountain Green, Forest Hill and Emmorton) have contributed funds towards site acquisition and will share facilities. Design is underway as a coordinated effort with Harford County Public Schools and Department of Public Works for the park, school, and road improvements. The initial phase of park development will include baseball / softball diamonds, lacrosse / soccer fields, and entrance road with associated parking. Future plans include an indoor recreation facility, which will be constructed in FY 2011. Additional residential development in certain areas of the County is anticipated as a result of the increased job opportunities. Population growth will generate demand for additional recreation facilities. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Project Title: Parks and Recreation	Project Number: P054124
Project Title: Trails and Linear Parks	Project Location: Various

**Project Description / Justification:**  
This project proposes the acquisition and development of hiker / biker trails, greenways, and linear parks. Trails may be constructed along existing roadways, in existing and proposed park sites and / or the Ma & Pa railroad track bed. These trails will be used for transportation as well as physical fitness facilities for walking, jogging, and bike riding. Environmental education programs will also be provided. Funds have been allocated for engineering for two separate trail segments - connection of Phase I and Phase II of the Ma & Pa Heritage Trail, and a hiker / biker trail near the Whiteford / Cardiff community. FY 09 funds will complete engineering for the Whiteford / Cardiff segment. Construction will occur as grant funds permit. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: Parks and Recreation	Project Number: P084126
Project Title: Tudor Hall Rehabilitation	Project Location: Bel Air, MD
Project Description / Justification: In 2006, Harford County acquired Tudor Hall, the historic home of the Booth family, including the famous Shakespearean actors Junius and Edwin Booth, as well as John Wilkes Booth. The structure is more than 150 years old and conservation efforts are needed. FY 07 funds were funded to reinforce the foundation and replace the roof. Other projects will be identified as the need arises. This project supports the goals and objectives of the 2005 Land Preservation, Parks and Recreation Plan and its Capital Improvements Program Recommendations.

Dept. / Agency: DPW - Highways	Project Number: H054501
Project Title: Bridge Inspection Program	Project Location: Countywide
<b>Project Description / Justification:</b> This program provides funding for the inspection of bridges in Harford County. The bridges under 20 feet are inspected every two years (even fiscal years) using county funding. The bridges over 20 feet are inspected every two years (odd fiscal years) using Federal funding. Federal law mandates the inspection of all bridges over 20 feet clear span on a two year cycle. The bridge inspection data is analyzed to develop priorities for bridge repairs and replacements. As of September 2005, the County maintains 64 bridges under 20 feet long and 143 structures longer than 20 feet.

Dept. / Agency: DPW - Highways	Project Number: H974510
Project Title: Bridge Painting	Project Location: Countywide
<b>Project Description / Justification:</b> This project provides funding to paint bridges in Harford County. This preventative maintenance project will help to conserve future County resources by extending the life of the existing bridges and forestalling expensive replacement costs. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H054502
Project Title: Bridge Rehabilitation	Project Location: Countywide
Project Description / Justification: This project will supply funds to perform maintenance and repairs on the County's 200+ bridges. The maintenance / repairs performed under this program are mainly smaller scale repairs, designed mostly by the County's Engineering staff, and constructed by either the County's in-house bridge crew or by a contractor. If, in the design process, the project becomes fairly extensive, the bridge will be broken out into a separate capital project for a future budget. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: New
Project Title: Glen Cove Road Bridge #156	Project Location: Darlington, MD
Project Description / Justification: This project is to replace the bridge that carries Glen Cove Road over Peddler Run. The existing bridge is a single lane, steel beam, concrete deck structure that is posted for 23 tons. The existing concrete deck, exterior beams and wingwalls are severely deteriorated. Recent and past storms have overtopped this bridge on a regular basis. It is more cost effective to replace this bridge then it would be to rehabilitate it. This project is consistent with the Master Plan goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H084502
Project Title: Macton Road Bridge #144	Project Location: Street, MD
Project Description / Justification: This project is to replace the superstructure on the bridge that carries Macton Road over Broad Creek. The existing bridge is a single lane, steel beam, concrete deck structure that is posted 27 tons (after the County Highway crews performed welding repairs to the internal beam ends in the Fall of 2003). The existing concrete deck curbs, and exterior beams are severely deteriorated - which resulted in a recent narrowing of the travel portion of the bridge to relieve stress from the exterior beams. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H054505
Project Title: Ruffs Mill Road Bridge #190	Project Location: Hickory, MD
Project Description / Justification: The purpose of this project is to replace the bridge that carries Ruffs Mill Road over a tributary of Thomas Run. The existing bridge is a four cell, 67" wide x 36" high corrugated metal pipe arch structure. The pipes are deteriorated with multiple perforations in them allowing water to run beneath the pipes. The pipes were temporarily sealed in 2005 with pressure-crete concrete lining - but that was a temporary measure. The waterway opening is undersized and multiple storms have overtopped the culvert entrance, thereby creating flooding over and along the road segment. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve the existing and future populations.

<b>Dept. / Agency:</b> DPW - Highways	<b>Project Number:</b> H064501
<b>Project Title:</b> Bridge and Road Scour Repairs	<b>Project Location:</b> Countywide
<b>Project Description / Justification:</b> The county has conducted a recent Scour Analysis study that identified many bridges that need scour repairs. Additionally, there are several streams adjacent to roadways eroding the supporting embankment. Bridge scour originally focused on the scour of bridges; however, in recent years, the streambank erosion under the roadway has been an increasing concern for the Department. This project will provide the funds to address both issues. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future population.

Dept. / Agency: DPW - Highways	Project Number: New
Project Title: Fawn Grove Road Bridge #132	Project Location: Street, MD
Project Description / Justification: This project is to replace the bridge that carries Fawn Grove Road over Falling Branch. The existing bridge is fairly sound structurally, but is very poorly aligned and very narrow for this rural collector roadway. The proposed bridge will widen the existing bridge and better align it to the approaching roadways. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: New
Project Title: West Ring Factory Pedestrian Bridge	Project Location: Fallston, MD
Project Description / Justification: This project is to rehabilitate the pedestrian bridge that carries a hiking trail from Harford Glen over Winters run. This potentially historic truss bridge supports a timber walkway on one side of the bridge. The steel truss, floorbeams, and stringers are quickly deteriorating and need to be repaired or replaced.

Dept. / Agency: DPW - Highways	Project Number: New
Project Title: Commerce Road - Private Road Construction	Project Location: Bel Air, MD

**Project Description / Justification:**  
 Commerce Road through Forest Hill Industrial Airpark (FHIAP) has been a private road since its construction 15-20 years ago. The County has desired a connection to MD23 under the pretense that this connection would reduce traffic flows along Jarrettsville Road including the intersections of Jarrettsville Road with MD24 and US1. The developer of FHIAP will contribute funds to the reconstruction of Commerce Road so that it meets County standards and can be taken into the County's system. Once in the County system (or bonded to be in the County system) the Maryland SHA will allow a connection to MD23 which will be constructed by the developer of FHIAP. This project will construct Commerce Road from Industrial Lane to Jarrettsville Road. This project meets the goals of the Transportation Element of the Master Plan by maintaining a safe and adequate transportation network to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H984519
Project Title: Moores Mill Road	Project Location: Bel Air, MD
<b>Project Description / Justification:</b> This project consists of improving Moores Mill Road between MD 924 and Southampton Middle School to address the safety and traffic volume increases due to the continuous development in and around the Bel Air area. Approximately 10,000 linear feet of closed section road is proposed to be built in three phases. Phase I (currently funded) will reconstruct the culvert and roadway in the vicinity of Del Plaza. Phase II (FY 11) will reconstruct from Del Plaza to MD 924 and Phase III (FY 13) will go from US1 (Bus.), to Southampton Middle School. It is anticipated that the Town of Bel Air will provide a portion of the funding for this project. This project meets the goals of the Transportation Element of the Master Plan by maintaining a safe and adequate transportation network to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: New
Project Title: Road Reconstruction and Rehabilitation	Project Location: Countywide
<b>Project Description / Justification:</b> This is an ongoing project activity to reconstruct and rehabilitate subdivision streets and repair or upgrade County roads. The project provides for the bituminous concrete overlays, pavement recycling and roadway reconstruction in various rural and urbanized roads. Supplemental work on these roads can also include curb repairs and / or replacement and necessary stormdrain improvements. Roads to be included will be determined each spring and will be dependent upon the severity of the roadway problems and cost for repairs. An estimated 3% / year inflation cost is included in FY 13. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H024512
Project Title: Second Watergate North Private Road Conversion	Project Location: Edgewood, MD
<b>Project Description / Justification:</b> This project was originally proposed for the conversion of two privately owned County roads in Edgewood to public roads. As with other private conversion roadways, Harford County DPW and the County Treasury agreed to forward fund the design and construction with the final payments being reimbursed to the County over a 10-20 year period by the adjacent property owners. In this project, the design was completed, final estimates were calculated and the community decided that the expense was too high. As a result, the project was dropped. However, the County needs to reimburse itself for the design fees that have already been incurred.

Dept. / Agency: DPW - Highways	Project Number: H034501
Project Title: Tollgate Road (West Ring Factory to Plumtree Road)	Project Location: Bel Air, MD
Project Description / Justification: This section of Tollgate Road has been identified as, what will be, the only section not up to current County standards from Abingdon to Bel Air. Upon completion of the "missing" road segment to the south of Plumtree Road, Tollgate Road may become a higher volume commuter road to avoid delays along MD 24. In order to accommodate the large volumes of traffic, this section of roadway will need to be upgraded. The proposed improvements will also decrease the frequency and extent of the flooding at Plumtree Run and is proposed to include sufficient shoulder area to accommodate bicycle traffic. This project meets the goals of the Transportation Element of the Master Plan by maintaining a safe and adequate transportation network to serve existing and future populations.

<b>Project Title:</b> Wheel Road (Laurel Bush to Fairway)	<b>Project Location:</b> Bel Air, MD
<b>Project Description / Justification:</b> Wheel Road, between Laurel Bush Road and Fairway Drive, is to be improved to adequately handle existing and projected traffic volumes. This project, approximately 9,000' long, will improve the capacity and safety of this vital collector road linking traffic between subdivisions along the MD 543 corridor to the east and businesses along the MD 24 corridor in the west. The project is divided into three phases with Phase I re-established as a separate capital project for the intersection of Laurel Bush Road and Wheel Road. Phase II will extend from the roundabout to Patterson Mill Road and Phase III will go from Cedar Lane to Fairway Drive. This project meets the goals of the Transportation Element of the Master Plan by maintaining a safe and adequate transportation network to serve existing and future populations.

Project Title: Abingdon Road (Box Hill S. Pkwy - I-95)	Project Location: Abingdon, MD
<b>Project Description / Justification:</b> Abingdon Road between existing Box Hill South Parkway and I-95 is to be improved to adequately handle existing and projected traffic loads. The road will be widened with turn lanes and sidewalk installed. This will improve safety and pedestrian access from the commercial areas near MD 924 to the residential communities to the east. The section of road from MD 924 to Box Hill S. Pkwy is completed. The remaining sections are scheduled for the outyears. This project meets the goals of the Transportation Element of the Master Plan by maintaining a safe and adequate transportation network to serve existing and future populations.

Project Title: Bata Boulevard Access Road	Project Location: Riverside, MD

**Project Description / Justification:**  
 This project will construct an access road from MD 543 directly to Bata Blvd. The project has been planned since the redevelopment of the Bata land site. Right of way to construct the road has been reserved and the alignment is already rough graded. This project will relieve existing and anticipated delays at the existing US 40 / MD 543 intersection by eliminating the left turns from MD 543 to westbound US 40. Increases in traffic from both Perryman and BRAC will necessitate the capacity improvements. The anticipated increase in traffic volumes from BRAC will create additional delays at the MD 543 / US 40 interchange, this project will divert some traffic to another location thereby reducing delays and adding capacity to the intersection. While not directly on the County's Master Plan, this project will add capacity in the area of the County where the County is directing re-development and that, combined with BRAC related traffic, will create a need for additional capacity.

Project Title: Carrs Mill Road (MD 152 - Grafton Shop Road)	Project Location: Fallston, MD
Project Description / Justification: Carrs Mill Road between MD 152 and Grafton Shop Road is to be improved to adequately handle existing and projected traffic loads and to improve safety. The initial phase from MD 152 to Belle Meade Road is currently under construction. Future improvements will improve safety and increase capacity from Belle Meade road to Grafton Shop Road. This project meets the goals of the Transportation Element of the Master Plan by maintaining a safe and adequate transportation network to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H044507
Project Title: MacPhail Road (Brierhill Road - Wheel Road)	Project Location: Bel Air, MD

**Project Description / Justification:**  
 MacPhail Road from Brierhill Road to Wheel Road is to be improved to adequately handle existing and projected traffic volumes as well as improve the safety of the road. The first section of the road, from Brierhill Drive to the Bynum Run Bridge, will be designed and constructed first to address a poor road alignment and additional traffic (both vehicular and pedestrian) from a new subdivision in the area. Funds from the New Roads and Stormdrains account may be utilized in conjunction with land donations from the developer - to make this road improvement possible. Outyear funds are for the remainder of the road.  
 This project meets the goals of the Transportation Element of the Master Plan by maintaining a safe and adequate transportation network to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H054509
Project Title: Perryman Access - Mitchell Lane	Project Location: Perryman, MD
<b>Project Description / Justification:</b> This project is for the construction of a new bridge that will connect US40 in the vicinity of Mitchell Lane to the northern side of the Perryman peninsula. The project will be the main access for the residential development west of Perryman and to the north of the Amtrak railroad tracks. The County's portion of the project will extend 1/2 mile past the US 40 intersection. While in the vicinity of the impacts of BRAC, this project is not directly affected by it except for the improvement in traffic congestion that will occur in the region upon its completion. This project is in support of the Master Plan, since it is the County's desire to develop the Perryman peninsula into an industrial and residential area. This road provides access into that area without the need to drive through the village of Perryman.

Dept. / Agency: DPW - Highways	Project Number: H044508
Project Title: Prospect Mill Road (Thomas Run Road - MD22)	Project Location: Bel Air / Churchville
<b>Project Description / Justification:</b> Prospect Mill Road from MD22 to Thomas Run Road is to be improved to adequately handle existing and projected traffic volumes, as well as improve the safety of the road. The initial phase will investigate the section from the Wagner Farm Subdivision to MD22 - with future investigations to look at the remainder of the road. Preliminary investigation is anticipated to begin in the FY 07 budget with hard design proposed to be in the FY 09 budget cycle. Proposed improvements include shoulders and geometric improvements for the improvement of sight distances and the flattening of curves for safety. Bicycle traffic will be considered and the replacement of a twin 36" culvert will be included in the project. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: New
Project Title: Resurfacing Roadways	Project Location: Countywide
<b>Project Description / Justification:</b> This is an ongoing project activity to resurface the county's 630 plus miles of asphalt pavement. Through good planning and the use of extensive preventative measures including crack sealing, sweeping, patching, and micro-surfacing, these roads should last about 20 years between resurfacing. This program will then overlay, all 630 miles of road once every 20 years or about 31.5 miles of road per year. This program will also include about 26 miles of micro-surfacing per year. The estimated construction cost is \$7.8 million / year (not including inflation). The budgeted numbers reflect an estimated 3% / year inflation cost. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Project Title: Tar and Chip Conversion to Hot Mix	Project Location: Countywide
<b>Project Description / Justification:</b> This is an ongoing project activity to rehabilitate existing County Tar and Chip roads to a hot mix asphalt surface. These types of roads have experienced a significant increase in the amount of traffic that they are carrying with the tar and chip surface unable to withstand the vehicular load. The Division has identified numerous roads that need to be upgraded. This project is consistent with the master Planning goal of maintaining a safe and adequate transportation system to serve the existing and future populations.

Dept. / Agency: DPW - Highways	Project Number: H054513
Project Title: Tar and Chip Reclamation	Project Location: Countywide
<b>Project Description / Justification:</b> This project will rebuild existing County Tar and Chip roadways utilizing an in-place recycling process. This process provides a cost efficient means of rehabilitating certain rural roads that require continual maintenance to address re-occurring deteriorated conditions due to the age of the roadway. It rejuvenates the structure of the road base, provides a new wearing surface, improves drainage characteristics and re-establishes the road profile. This project is consistent with the Master Planning goal of maintaining a safe and adequate transportation system to serve the existing and future populations.

<b>Project Title:</b> New Roads and Storm Drains	<b>Project Location:</b> Various
<b>Project Description / Justification:</b> As new projects are presented for approval by Public Works officials, those developers and the property owners will be required to provide funding for the engineering and construction costs to improve and upgrade existing roadways, streets, storm drainage systems, and stormwater management facilities for those areas affected by the impact of new projects. In some instances, improvements to be made by developers may be augmented by improvements to be made by the County. County funded improvements would be in adjacent areas beyond the developer's responsibility, thus providing more comprehensive improvements to the roadways.

<b>Dept. / Agency:</b> DPW - Division of Engineering	<b>Project Number:</b> H074509
<b>Project Title:</b> Equipment Sheds	<b>Project Location:</b> Various
<b>Project Description / Justification:</b> Funds are requested for construction of equipment storage sheds to protect assigned equipment from the elements (current value in excess of \$9,000,000). Intent is that the shed be a basic structure with a roof, walls, and electric lights. Equipment is currently parked in the open with no cover for the operator when he / she performs routine preventive maintenance. No protection from the elements makes the vehicles more difficult to start in the winter and causes more rapid deterioration of equipment. Funds are requested for the Abingdon and Hickory Complexes.

Dept. / Agency: DPW - Division of Engineering	Project Number: H054507
Project Title: Intersection Improvements	Project Location: Various
<b>Project Description / Justification:</b> The purpose of this project is to improve the traffic capacity and safety at selected intersection throughout the County. Reduced levels of service on most roads is a direct result of limited capacity at the intersections. Therefore, widening or redesign of the intersection under this project can result in increased capacity and safety with decreased delay. Additionally, intersections with reduced sight distance may be corrected under this project.  This project is consistent with the Master Plan goal of maintaining a safe and adequate transportation system to serve existing and future populations.

<b>Dept. / Agency:</b> DPW - Division of Engineering	<b>Project Number:</b> H974508
<b>Project Title:</b> Sidewalks	<b>Project Location:</b> Various
<b>Project Description / Justification:</b> This project provides for the construction of sidewalks to interconnect communities, schools and commercial areas. The project will benefit air quality and congestion by encouraging local walking trips and will improve safety by separating pedestrians and motor vehicles. The State Highway Administration Access 2000 program is for sidewalks along State Roads and requires a 50% match from local jurisdiction. This project is eligible for Federal funds.

<b>Dept. / Agency:</b> DPW - Division of Engineering	<b>Project Number:</b> H064513
<b>Project Title:</b> Stormdrain Rehabilitation	<b>Project Location:</b> Various
<b>Project Description / Justification:</b> Funds are to be utilized for replacement / rehabilitation / repair of existing stormdrain systems throughout the County. Additional funds are to be utilized for an inspection of the stormdrains. Due to the cost associated with inspecting all of the stormdrains in the County, the stormdrains most susceptible to deterioration will be inspected in the first phase of this analysis (i.e corrugated metal pipes, greater then 48" in diameter and with a continuous base flow of water).  This project is consistent with the master plan goal of maintaining a safe and adequate transportation system to serve existing and future populations.

Dept. / Agency: DPW - Division of Engineering	Project Number: H064514
Project Title: Traffic Signals	Project Location: Various
Project Description / Justification: This project provides for the construction, upgrading and maintenance of necessary traffic signals, intersection control beacons, and flashing warning beacons on County roads. At State / County road intersections, the County is required to provide matching funds (1/3 to 1/2 dependent upon the intersection configuration) for its share of the project. One four-legged intersection costs approximately \$120,000, and intersection warning beacons (flashers) cost approximately \$40,000. As a number of vehicles on the road increases, it is projected that a minimum of one to two signals per year will be required to maintain adequate traffic flow and safety.

<b>Dept. / Agency:</b> DPW - Water and Sewer	<b>Project Number:</b> W086687
<b>Project Title:</b> Abingdon Road Water Main Parallel	<b>Project Location:</b> Abingdon Road to Route 7
<b>Project Description / Justification:</b> This project will allow for the design and construction, beginning just south of I-95 approximately 800 linear feet of parallel 36", 2,260 linear feet of replacement 30" (to replace existing 12") to Route 7, and 4,435 linear feet of parallel 20" water transmission main from Route 7 to US Route 40. This project will provide the necessary initial transmission capacity of the expansion to the Abingdon Water Treatment Plant in order to move water down into Zone 1 towards Aberdeen and Edgewood. This project is part of the Water and Sewer Element Plan.

Dept. / Agency: DPW - Water and Sewer	Project Number: W066672
Project Title: Chlorine Replacement Program Water Treatment Plant	Project Location: Harford County Water Treatment Plants
<b>Project Description / Justification:</b> This project shall allow for the design and construction of gaseous chlorine conversion alternatives for the County's Perryman Water Treatment Plant and the Havre de Grace Water Treatment Plant. The conversion will enhance the safety of not only the workers, but the surrounding communities. The Abingdon Water Treatment Plant conversion will be done with the expansion project. No land is needed and the life expectancy is 20 years.

Dept. / Agency: DPW - Water and Sewer	Project Number: New
Project Title: Construction Unanticipated Water	Project Location: Harford County Water System
Project Description / Justification: The purpose of this project is to establish an account to provide resources for projects associated with the relocation of water mains affected by the relocation of State Highways within Harford County. Until decisions are made as to who will pay for these relocations, Harford County needs the flexibility to react to these unanticipated requirements. With the anticipation of the Route 24 interchange happening, many utilities may need to be relocated.

<b>Dept. / Agency:</b> DPW - Water and Sewer	<b>Project Number:</b> New
<b>Project Title:</b> Tank Painting 09	<b>Project Location:</b> Harford County Water System
<b>Project Description / Justification:</b> This project provides the Department with the financial capacity to paint and repair existing water tanks. All tanks require periodic renovations including cleaning, sand-blasting, structural and safety repairs, and repainting. Currently there are 12 tanks on our system and a typical painting system will last 10 to 12 years. The next 3 tanks painted are planned to be Preston Manor, Abingdon, and Magnolia. This project is part of the Water and Sewer Element Plan.

<b>Dept. / Agency:</b> DPW - Water and Sewer	<b>Project Number:</b> New
<b>Project Title:</b> Bynum Run Parallel Phase 6 & 7	<b>Project Location:</b> North of Wheel Road and Bynum Stream
<b>Project Description / Justification:</b> This project will allow for the funding of design, permitting and construction of a parallel to the existing Bynum Run Interceptor, from Wheel Road to the Plumtree Interceptor, near MacPhail. This project consists of approximately 6,234 linear feet and various street crossing with stabilization. Parallel is required from SSCAP MH #106 to MH #126. This project is part of the Water and Sewer Element Plan.

Dept. / Agency: DPW - Water and Sewer	Project Number: S036632
Project Title: Harford Estates Pump Station Abandonment	Project Location: Blake Property
<b>Project Description / Justification:</b> This project shall provide the County's share of the eventual abandonment of the Harford Estates Pump Station with the proposed project on the Blake Property. As the Blake Property develops it will be required to construct a regional Pump Station that will provide the capacity to eliminate 3 existing Harford County pumping stations. It is anticipated that the Developer's cost will be approximately 25% of the new pump station and 85% of the force main in accordance with the 2006 policy statement. This project will alleviate the County's cost to rehabilitate 3 very old stations. This project is part of the Water and Sewer Element Plan.

Dept. / Agency: DPW - Water and Sewer	Project Number: S076682
Project Title: Sod Run Generator	Project Location: Sod Run Wastewater Treatment Plant
Project Description / Justification: This project will allow for the design, purchase and installation of an emergency generator to be located at the Sod Run Wastewater Treatment Plant. Currently this plant is supplied by dual feed from the power supplier, however these feeds are not 100% reliable and when power is out we do not have the ability to treat wastewater.

Dept. / Agency: DPW - Water and Sewer	Project Number: New
Project Title: Towne Center Drive Pump Station Replacement	Project Location: Towne Center Drive
<b>Project Description / Justification:</b> The project shall allow for the design and construction of a replacement pump station in Joppatowne. The existing pump station was originally built in the 1960's and has reached the end of its useful life. This project entails a complete pump station replacement including wetwell/drywell configuration, control building, emergency generator, water meter, odor control and other ancillary equipment. Pump station capacity shall remain at 6,900 gpm.
